Development Debate To Hit Zoning Board

by KAREN WILTBERGER

A petition to rezone 13.5 acres on the northwest corner of Rtes. 83 and 173 for a proposed Ramada Inn and other commercial businesses has stumbled into opposition, but the zoning board of appeals still may recommend the development to the Antioch Village Board.

The planning commission unanimously denied the petition of John L. Dupre, who has the option to buy the land from John Turnock and Anna Mae Dunzel. The zoning board was scheduled to hear Dupre's request at 7:30 p.m. on Wednesday, Dec. 11.

The petition asks the village to change residential zoning to B3, R5 Special Use and R5 zoning.

Development plans include an 80-unit apartment complex, a gas station and a professional office complex.

Al Berkiel, who chaired the planning com-

mission meeting because chairman Lyle Wilson lives too close to the proposed site, said Dupre was not ready to answer several questions asked by some 25 people living near the site. He said it is expected the same people will want answers at the zoning hearing.

"We had to vote 'no' on the amount of information we were given, but the commission seems to be in favor of the concept," said Berkiel, adding that the commission asked Dupre if he would like more time to prepare.

Berkiel said, "If there wasn't so much opposition and more information on the main issues, there may have been a chance it might have flown."

Citizens living near the proposed site brought up three concerns at the planning commission meeting, none of which Dupre could answer, Berkiel said.

People are concerned with the possibility of harm to the ecology of Lake Antioch due to drainage from roads that would need to be built, he said. Nearby residents question opening up a dead-end road off of busy Rte. 173, contending that Dupre has not had traffic studies done by the Illinois Dept. of Transportation, he said.

Another concern is the noise level and a change of scenery where residents had purchased their homes many years ago, he said.

Joseph Veith, a member of the zoning board of appeals, said development on the prime Antioch location needs to be considered very carefully.

"I hope he (Dupre) is prepared," Veith said. "I think we have to look at it very seriously. I've got to hear the testimony and after I hear the testimony I'll make up my mind. Right now my mind is open."

If the zoning board denies the recommendation, the village board would have to approve the petition by two-third, of its members.

Promotion Localizes Christmas Spending

The Antioch Retail Merchants Assn. may have hit a goldmine this holiday season with its first try at keeping dollars in Antioch with Antioch Christmas Cash.

The promotion, which is the only one in the Lakeland area, has some \$3,000 of play money floating around waiting to be redeemed at participating stores.

Shoppers who received Christmas Cash by purchasing goods between Nov. 29 and Dec. 10 have until Christmas Eve to spend their play money.

The outcome so far is better than expected and many of the shoppers seem to be from Antioch, said people close to the promotion.

What makes this program tick, said Don Marski, co-chairman of the Antioch Retail Merchants Group, is that customers must redeem the Christmas cash at participating stores other than the one where they received it.

Customers who get Christmas cash in one store can go to another store and buy something which could either be on sale or be accompanied with more Christmas cash, Marski said. "It's encouraging to other merchants," he said. "It keeps money in town and it's a way for merchants to help each other."

Mike White, also co-chairman of the merchant's group, said the promotion is destined to become an annual event. This year 16 merchants are participating and next year the group hopes to attract more Antioch businesses, he said.

The group has used direct mail pieces as well as print media to advertise. White said the group will use more expensive methods of advertising as well next year if this year proves successful.

"It is as successful as merchants make it," said White.

Participating in the promotion this year are: J.J. Blinkers; King's Pharmacy; Tony White's Shoes; Jack's Four Squires; Johnson Jewelers; B.J. Sports Center; B.J. Fashions for Men; Carousel; The Globe; Antioch True-Value; Raymond Chevrolet & Oldsmobile; Ben Franklin; Antioch Family Sports Center; Erickson Sewing Center; Hahn Jewelers; and Lyons Ryan Ford Mercury Lincoln.

The retail group, a member of the Antioch Chamber of Commerce and Industry, consists of some 26 businesses and is always looking for more members, White said. For more information call the chamber office at (312) 395-2233.

Less Salt Will Save Tax Money, Help Lakes

Taxpayers will save money and the environment will stay more healthy this winter under a change in snow removal on Antioch Twp's 75 miles of roads.

Antioch Twp. Highway Commissioner Mark Ring, who is facing his first winter as head of the highway department, is cutting back on the amount of salt in the department's salt

and sand mix that is used to clear roads.

The township has a bid on 350 tons of salt at \$22.96 per ton, but Ring said the township won't use that much salt and instead will use more sand, which costs just \$2.45 per ton.

The ratio of sand to salt will be about 5 to 1 this year compared to a 3 to 1 ratio in prior

Fire Bureau Gives Tips On Christmas Safety

In a continuing effort to encourage home safety and to help all Antioch residents enjoy a joyous holiday season, the Fire Prevention Bureau of the Antioch Fire Department is making the following suggestions:

The natural tree you bring into your home must be truly fresh. Look for a tree deep green in color with a strong pine scent. Needles should be firmly attached to the twigs and should bend without breaking. The cut end of the tree trunk should be sticky with sap. Test the tree for freshness before you buy by shaking it gently; if many needles fall, the tree is probably too dry.

Some trees tend to last longer than others. The balsam fir and the Scotch pine are generally long-lived. The spruce, however, is the first to drop its needles even when watered regularly.

Keeping your natural tree fresh requires just a little attention. When you get your tree home, cut about two inches off the trunk and mount the tree in a sturdy, water-holding stand. Make sure the tree is well supplied with water. Choose a location for the tree

that is away from heat and other drying sources. Never place a Christmas tree in an exit way.

When decorating your tree, use only lights and extension cords bearing a certified label. Inspect all light strings and cords to be sure they are safe from breaks and loose connections. Replace all broken sockets and plugs.

Don't use strings of electric lights to decorate a metal tree; the tree may easily become "charged." Always use indirect lighting for a metal tree.

Some plastic and metallized-plastic trees may be combustible, so make sure the one you take home is labeled fire resistant.

All other decorations should be labeled fireproof or fire resistant. And if children are around, don't decorate with small ornaments that look like candy or food.

Captain Wayne Parthun of the Fire Prevention Bureau wants to also remind all Antioch area residents not to use decorative candles and to never leave candles unattended.

Jaycees To Host Santa Breakfast On Dec. 22

The Antioch Jaycees are hosting a pancake breakfast on Sunday, Dec. 22 with Santa as the guest of honor. Breakfast will be from 7 a.m. - noon at Michael's (formerly the Windjammer) on west Rte. 173. Children will have the opportunity to visit with Santa before, during and after breakfast. Two Cabbage Dolls will be given away during the morning.

Several Antioch businesses have sponsored Santa's trip to Antioch. They are: First Bank of Antioch, Bank of Waukegan - An-

tiotch Branch, Antioch Pizza, Lyons - Ryan Ford and Hoff's Columbia Bay Restaurant. Proceeds will be used to sponsor campers to Camp New Hope.

Camp New Hope, located in Mattoon, Illinois, is a residential summer camp for the exceptional individual - the person with mental or physical disabilities, for whom regular summer educational and recreational activities are either unavailable or inadequate.

years, Ring said. Some states have even eliminated the use of salt altogether, Ring said. He said the township will use both materials (sand to create friction and salt to melt ice), but in future years may cut back to just sand.

Besides trimming costs, the township, the largest in Lake County, will help the environment by cutting down the amount of salt that runs off along with the melted snow into more than a handful of lakes in the township.

The addition of salt in fresh water lakes is not healthy and the department wants to eliminate that as much as possible, said Ring, who has worked for the department for eight years.

Over the Thanksgiving holiday's first substantial snow, the department used all five of its trucks and used 150 tons of salt and sand mix. If that's any indication to what winter will be in the township, Ring said, "We're prepared for it."

This fall the department hired a mechanic to prepare the trucks for another winter season.

In extreme cases of deep snow along with drifting and blowing, the department has access to a Austin Western Grader with a front plow and a wing plow.

Proposed Teen Dance May Include Other Schools

Two groups of Antioch residents trying to re-open teen dances met Dec. 5 at which time the ball went into the court of a more recent group aiming to open dances at Windy City Circus Troupe and School for the Circus Arts, three miles east of downtown Antioch.

"We're still waiting for an ultimate plan," said Wayne Parthun, who helped start original dances in March. "They're pushing for something on a bigger basis so we still might push for something locally."

A meeting was set for Tuesday morning with residents trying to open dances at Windy City school, owner Ed Sheehan and members of the Dancin' Machine, which holds teen dances at Kristof's, in Round Lake.

Kathy Malicki, an organizer at Windy City, said the group is still "throwing ideas back

and forth." She said it has been discussed to include other high schools as well—namely Grant, Richmond-Burton and Wilmet.

The group discussed the idea with the student council at Grant and the response was very positive, Malicki said.

The Dancin' Machine is being considered to run the dance, which would turn the operation into a professional for profit operation, Malicki said.

Parthun said the original intent was to be non-profit. But Malicki said the aim is not to make money but to give some place for teens to go on weekend nights.

Malicki said when a plan is on the table, they will ask for the support of an original group of organizers of the local teen dances.

Jaycees To Call Santa Dec. 17, 18

This year again, the Antioch Jaycees have made arrangements for a direct telephone line from Santa's workshop at the North Pole to Antioch, so that Santa can talk directly to the children of Antioch.

Flyers have been given to the children of the following schools: Antioch Grade School, Emmons Grade School, Grass Lake Grade School, Oakland Grade School, Peppermint Pre-School, St. Peter's, Lotus, Gavin Central and My Tree House.

The flyers were given to pre-school through-third grade. If any child did not receive a flyer and would like Santa to call him or her, please send the child's name, phone number, gift expected from Santa and parents signature to Santa Phone, c/o Antioch Jaycees, P.O. Box 254, Antioch, Ill.

60002. Deadline is Dec. 13.

The Jaycees have arranged for the calls to be made on Tuesday and Wednesday, Dec. 17 and 18, between 7 and 9:30 p.m. Please indicate the night for call.

Fire Ruins Stereo

A Friday morning fire destroyed a stereo, turntable and cabinet at 42326 Park Lane, in Antioch, said Capt. Wayne Parthun.

The fire that originated in the cabinet was possibly electrically caused. The fire caused minimal fire damage, but there was a lot of smoke damage, he said. The owner of the house is Larry Hilger.

Parthun reminds residents to make sure their smoke detectors are working properly.

ACHS To Host Festival

Step back into the Dickens' era of time and enjoy the Christmas Spirit at Antioch Community High School's "Dickens Christmas Festival" at 7:30 p.m. Saturday, Dec. 14 and at 2 p.m. Sunday, Dec. 15.

Festivities will start in the commons area and nearby hallways where strolling carolers will sing, instrumental groups will play and vendors and merchants will sell their arts and crafts, as well as Christmas delicacies to eat and drink.

Watch while pottery is made on the potter's wheel, the art of candle making is explained, and, be swept away with the fun and merriment of a time long gone by.

The climax of the festival will be the production of the

two act version of the Dickens' "A Christmas Carol" in the auditorium. Drama students will enact the tale of Tiny Tim and the infamous Scrooge.

Well over 150 music, art and drama students are involved in this gala event offered by the fine arts department under the direction of Ralph Brooke, vocal director/head of department. John Olisar and Christina Lindberg, instrumental

directors; Sara Redd and Suzanne Townes, art teachers; and Mike Shehorn, drama director. All lend their talents to make this special event possible for the second year.

"Come ye one-come ye all," to the high school to enjoy the Charles Dickens Christmas Festival. Tickets are available from members of the fine arts department or at the door.

Change Concert Time

Due to conflicts in athletic and concert schedules, the Antioch Upper Grade School has changed the dates of its holiday concerts.

The Choir Holiday Concert

will be held from 7:45 to 8 p.m. on Monday, Dec. 16. The Band Holiday Concert will be held from 10 to 8 p.m. on Thursday, Dec. 16.

The public is invited.

Actress Makes Her Own Stage To Display Talent

by GLORIA DAVIS

What does a 30-year-old attractive mother and wife, who has yearned for the smell of greasepaint all her life do to perpetuate a latent professional acting career, despite the fact that she has talent but little formal training and few theatrical agents beating down her door?

She writes, produces, directs and stars in her own one woman show of course! The next step is to sell herself and the show to whomever is willing to pay to see it.

Although all that is much easier written than done, that's exactly what Mary Faktor of Vernon Hills is doing.

In fact she is scheduled to do her one-woman show, "The Six Ages Of Woman," for the Vernon Hills Welcome Wagon On Dec. 16 at Christ Lutheran Church in Vernon Hills.

Faktor, who left her childhood interest in acting behind when she got married and had children, realized at the tender age of 30 that she still wanted the world of make-believe to be part of her very real adult life.

Confidence in herself and her innate abilities as an actress was no problem, so

she started with local community theaters and was able to have the audience reaction send her on "the most fantastic high I've ever experienced."

When she decided that she was ready for the big time, she found the lack of formal training and the fact that there are not enough professional acting jobs out there slightly discouraging.

Mary Faktor

It was this massive professional rejection that drove her into conceiving just the right vehicle for her talents and marketing it to local clubs and organizations in the lecture circuit manner.

In "The Six Ages Of Woman," she is Vicki talking on the telephone to her friend Madge through six typical female life

phases: that of a love-sick teen, a bride, expectant mother, harried housewife, a woman returned to the work force and an expectant grandmother.

Slight costume changes and making each phone conversation a separate one, help allude to the passage of time.

So while she waits for those professional agencies to discover her, she is doing what she "loves best, performing, and loving every minute of it."

'Jokelore' Comes To Adler

Art Thieme, he of the wondrous collection of homemade instruments and world's largest collection of terrible puns, will give a children's concert at the David Adler Cultural Center on Sunday, Dec. 15 at 2 p.m.

A veritable goldmine of folksongs, ballads, "jokelore" and tall tales, Art has been bringing folk music and stories to audiences of all ages throughout the United States and Canada for 25 years.

Admission is \$3 for adults, \$2.50 for members and \$2 for children.

The David Adler Cultural Center, 1700 N. Milwaukee Ave., Libertyville, is a non-profit organization. For information, call (312) 367-0707.

Schedule Christmas Concert

The Waukegan Symphony Chorus and Chamber Singers, under the direction of Don Horisberger, will present their annual Christmas Concert, Dec. 14, at 8 p.m., in the Genesee Theater.

Guest Artists will be Phyllis Adams, on the harp, and Robert A. Ward, on the organ.

Besides an outstanding collection of Christmas songs, the chorus and singers will also feature the traditional audience carol sing.

A highlight of the concert will be Benjamin Britten's "A Ceremony of Carols," which includes 12 compositions. Britten was one of the most popular and prolific English composers of the mid-20th century. He wrote the carols while taking a boat back to England from the United States during the war. It took a month to make the trip.

The concert will open with a group of late-Renaissance early-Baroque pieces. One of these composers was Heinrich Schutz, a significant figure in the history of German music.

The other composers of this period presented in the concert are Tomas Luis de Victoria, a composer of the German Renaissance School, and Jan Pieterzoon Sweelinck, who lived in Amsterdam.

The chamber singers will open the second half of the

program with two numbers by Renaissance composers Johannes Eccard and Guillaume Costeley.

The next three pieces consist of contrasting settings of sacred texts from various countries and periods. They include "Touro, louro, louro!" by Nicholas Saboly, "The Three Kings" by Healey Willan, and "Mary Had a Baby" by William L. Dawson.

Near the end of the concert there will be such standards as "The Twelve Days of

Christmas," "White Christmas," "The Christmas Song," "Have Yourself a Merry Little Christmas," and "O Holy Night."

At the conclusion of the concert, the audience will be asked to join the chorus in a caroling-along.

Tickets are available at the Jack Benny Center, the Genesee Theatre, and at the door, \$5 for adults, \$2 for senior citizen, students, and military.

Artistic Ambiance Circles B. L. Plenty's Diners

by GLORIA DAVIS

English pubs are world famous, not only for the constant flow of English ale amid convivial camaradery, but also for their simple but good food.

A taste of that same old English atmosphere can be found close by in Lake County at B. L. Plenty's Restaurant, just south of the intersection of Rtes. 83 and 120 in Grayslake.

oak tables and chairs, the stained glass windows, the built in book shelves (complete with books for that library flavor), and the new glass atrium that abounds in greenery inside and in the courtyard view outside.

B. L. Plenty's locally famous luncheon buffet, that not only features salads galore but at least four hot entrees, brings in crowds from Tuesday through Friday for a reasonable \$3.45.

Other luncheon entrees, such as filet mignon, prime rib, crab-stuffed shrimp and gulf shrimp start at \$3.95.

B. L. Plenty's is locally famous for its very special special, succulent prime rib which is a daily feature.

A Friday night seafood and ribs buffet offers hungry customers both boiled and French fried shrimp, whitefish almondine, perch and barbecued ribs for a minimal \$5.95, served from 4:30 p.m. on.

LAKE COUNTY
Crime STOPPERS
PHONE (312) 662-2222

The Round Lake Beach Police Dept. and the Lake County Sheriff's Dept., along with Crime Stoppers are seeking information about a homicide which occurred at 419 Lake St. in the Village of Round Lake Beach.

On Sunday Morning, Nov. 24, the body of Mr. Robert Certa, a M/W 33 years of age, was discovered with two gun shot wounds to the chest. A joint investigation by Round Lake Beach Police and the Lake County Sheriff's Investigation Unit is currently underway.

At about 4 a.m. on Dec. 1, a 92-year-old Waukegan woman, living in the 700 block of Indiana, was awakened by the sound of her back door being broken open.

She suddenly found herself confronted by a black man wearing dark clothing and a stocking cap. This man then proceeded to rob the woman of a wrist watch and a gold ring. The offender is believed to have left the area on foot.

If you have any information about this crime or any other felony crime or felony fugitive, contact Crime Stoppers at (312) 662-2222.

If your information results in an arrest and indictment, you will be eligible for a cash reward up to \$1,000.

Remember, Crime Stoppers wants your information, not your name.

New Landfill Site May Go Up On Rte. 83

Waste Management, Inc. has contacted the Village of Round Lake Park concerning a proposed new landfill site off of Rte. 83, south of Grayslake, next to the ARF Landfill Corp.

Round Lake Park Mayor George Scherer said the proposed site consists of approximately 85 acres, 45 of which is part of the Heartland Development in Round Lake Park.

The other approximately 40 acres belongs to Lake County, the mayor said.

Scherer said Waste Management has only contacted the Park about the new landfill site and that there are no negotiations going on at the present time.

"We're waiting for them (Waste Management) to contact us again with some proposed details concerning the new landfill site," he said.

Scherer added that he has mixed emotions about the proposal. "I'm really not in favor of landfill to begin with, but if there has to be another site in Lake County, the proposed site next to ARF is a favorable one. I think it's a good idea to locate a new site next to an old one (meaning ARF). Why stink up two places instead of one," he said.

He said the Park board will take no action or make any decisions on the issue until Waste Management comes up with some details concerning the proposal.

The garbage disposal rate in the Park was increased \$2 as of Nov. 1 mainly because of the "hauling" process involved with the disposal of the garbage, the mayor said.

"HOD has to take our garbage all the way up to Milwaukee County in Wisconsin. That's a long

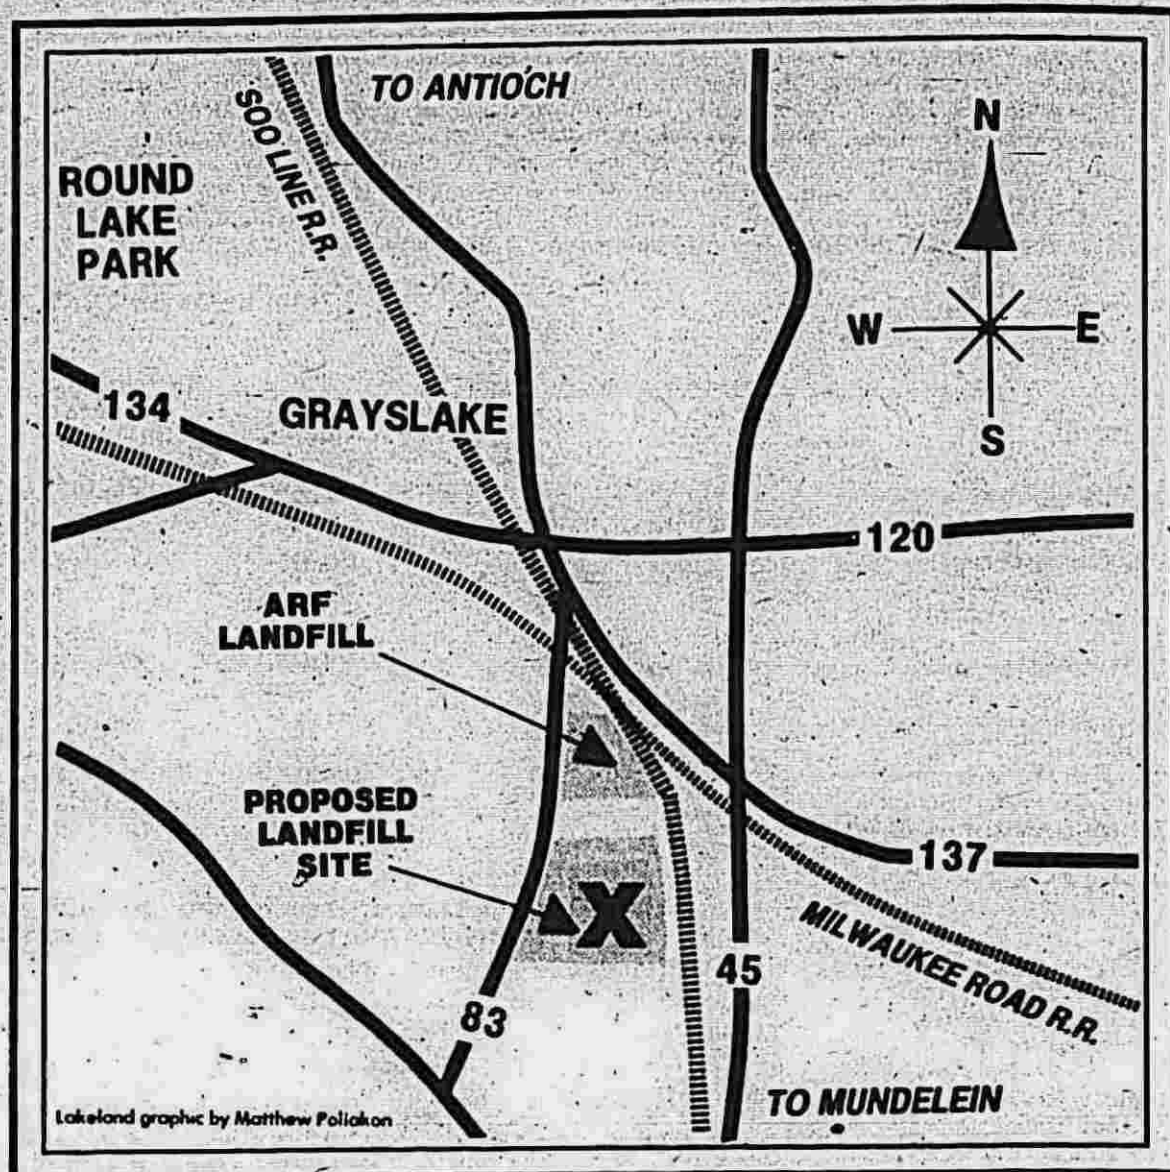

haul and that's why our garbage disposal rate has gone up \$2. We went out for bids for a new contract and the only bid we got was the one from HOD, so we really had no choice," Scherer said.

The representative from Waste Management that's dealing with the Park is Al Staub. Staub said his company is only studying the feasibility of a new site at the present time.

He said the proposed site would be used for household wastes only, but he hasn't committed himself as to what type of permit the new site would be seeking.

Ken Marabella, an alternate on the Lake County Solid Waste Advisory Committee (SWAC) and Village Administrator for Mundelein, said it's good that Waste Management is sending the proposed site through SWAC, even though it isn't necessary.

The purpose of SWAC is to study the possibilities and ways that Lake County collects and disposes its solid waste materials.

Proposed Site

The proposed new landfill site is directly south of the ARF Landfill Corp. on Rte. 83 in Grayslake. Approximately 45 acres of the proposed 85-acre proposal is part of Heartland Development project in Round Lake Park. The rest of the land, approximately 40 acres, belongs to Lake County.

Health Dept. Offers Support

The Lake County Health Dept. Division of Mental Health offers an evening weekly support group for parents and family members of mentally ill individuals.

This service is offered free of charge to Lake County

residents through the Coordinated Area Treatment Services (CATS) Program at 1115 27th St., Zion.

Arrangements for attending the group can be made by calling (312) 872-4245, Monday through Friday, 9 a.m. to 5 p.m.

Who's Who In Battle For Clerk Nomination

by JOHN STEINKE
(Political Columnist)

The executive committee of the Lake County Republican party, at its endorsement session on Dec. 2, voted that both county clerk candidates are "qualified" in the March 18, 1986, GOP primary election. The two aspirants are Wauconda Village Clerk Venita McConnell and County Board Rep. Donna-Mae Litwiler of Ingleside.

To secure an endorsement for the party's primary, it requires a two-thirds vote of the 26-member Central Committee. There are three secret ballots to determine whether or not a single candidate secures the organization's support in the primary contest. The endorsement leadership includes four countywide officials, four at-large members, and 18 township chairpersons.

McConnell has been win-

ning support from numerous public officials and party committeemen. Litwiler is Sheriff Robert H. "Mickey" Babcox's candidate. Shortly before the party meeting, a letter was circulated to GOP precinct committeemen supporting Litwiler's endorsement for county clerk. Besides Babcox, the signatories included Coroner Barbara Richardson, Clerk of the Circuit Court Sally Deadrick Coffelt, Treasurer Jack "Red" Anderson, along with State Representatives William Peterson, Virginia Frederick and Robert Churchill.

Despite Sheriff Babcox's mobilization of prominent Republican officeholders behind Litwiler, the party's central committee failed to endorse her candidacy. In fact, McConnell achieved a majority of the votes on all three ballots. But McConnell was unable to record the

two-thirds vote necessary for the Republican primary endorsement. Several party leaders have furnished Lakeland Newspapers with information on the executive committee's voting results under rules of confidentiality.

McConnell won the first ballot, 12-10, with several abstentions. On the next two ballots, McConnell received 15 votes, Litwiler 10 with one abstention. According to our sources, there was disagreement over how Bruce Hansen and George Francis cast their votes. Here are how the 26 members of the GOP Central Committee allegedly voted for county clerk on the final two ballots:

For McConnell: Robert P. Neal, Chairman; Merv Pilote, Treasurer; Gwen Seawright, Secretary; Jack Diamond, At-Large; Don Weiler, At-Large; William Snodgrass, At-Large;

Charles G. Kempf, Antioch; Morgan Williams, Benton; Steve Mounitsier, Cuba; "Ike" Lusk, Elia; Jeff Serdar, Newport; John Bobel, Waukegan; McConnell, Wauconda; Adeline Geokaris, Zion; Bruce Hansen, At-Large; (or) George Francis, Libertyville.

For Litwiler: Charles Oplawski, Avon; Mark Leopold, Deerfield; John Reindl, Fremont; Jack Kiesgen, Grant; Glen G. Moore, Lake Villa; Mary Beattie, Shields; Bill Peterson, Vernon; Shawn Depke, Warren; Dave Hansen, At-Large (or) George Francis, Libertyville.

The one abstention was Ted Anderson of West Deerfield.

For the first time, since 1966, there will be a contest for county clerk in the Republican primary. Twenty years ago, Truman Gerretsen defeated Robert H. "Mickey" Babcox for the GOP nomination for county clerk, 17,413-to-10,570. Gerretsen was deputy county clerk, who had the support of retiring incumbent Garfield Leaf. In 1970, Democrat Grace Mary Stern of Highland Park unseated Gerretsen by 904 votes. Mrs. Stern served three-terms as county clerk. In 1982,

Democrat Linda Hess succeeded Stern in office. She defeated Republican Harry Thomas by 355 votes. The winner of the GOP primary will oppose incumbent Hess in the 1986 November elections.

Mary Lynn Hamlin, daughter of James and Carol Hamlin of Antioch, is secretary of the College of Saint Benedict-Saint John's University International Affairs Club. Hamlin is a senior majoring in government and English.

CLC Previews AIC

The College of Lake County (CLC) will unveil the Automated Industrial Center (AIC), a prototype "factory of the future," at an open house Dec. 12.

The AIC uses computer aided design, numerical control and robotics to provide training in all aspects of modern manufacturing, including design, production and material handling.

The \$5 million facility was developed through a com-

bination of state grants, donations of equipment by manufacturers and local funds. It is located in the Lake County Area Vocational Center adjacent to the CLC Grayslake campus.

The open house will begin at 8 a.m. For more information on the Automated Industrial Center, contact Steve Springer, director of Career Program Planning and Evaluation, (312) 223-6601, ext. 418.

Christmas Concert

The Navy Band and Service School Command Choir from Great Lakes Naval Training Center, augmented by the Fourth Army Band from Fort Sheridan, will present a Christmas concert, Dec. 15, at 7 p.m. in Ross Auditorium at the training center.

The concert is free to the public, but advance reservations are required. Reservations can be made by calling (312) 688-4945 or (312) 688-2201.

Congratulations to all you

your Christmas stocking stuffer. Lot's of things for under \$1. Don't forget the children will be out of school with early dismissal on Dec. 20 starting at 1:50 - 1:55 and 2:10 p.m.

The Junion High dance last Friday night was a huge success. Everyone looked so nice all dressed up and ready for the holidays. The seventh grade did a nice job in decorating and running the dance.

Need to do something different for the Holiday Season - have a cookie exchange. When one gets a call to make twelve dozen cookies, it seems like a big chore, but when you are making only kind of cookies it really goes by fast. Call your friends and get one going. Make one dozen cookies for every person coming, but remember that you do not bring your

lucky winners!

Happy Birthday wishes to Linda Boerman who will be celebrating her day on Dec. 17. Rita Proctor will also be celebrating her day on Dec. 17. By the way, Linda and Rita are mother and daughter. Jan Litchford, will be celebrating her day on Dec. 17. On Dec. 19, Mary Boerman will be three years old. Linda, her mom will be having a real busy week. Marie Brausam will be celebrating her day on Dec. 22. Happy Birthday to you all!

A belated anniversary with to Jan and John Cole who celebrated their special day on Nov. 20.

Are you room mothers ready for your parties? Dec. 20 will be the last day of school for this 1985 year. Kindergarten through fifth grade will be having room parties starting at 12:45 p.m. because of early dismissal and the Junior High will be having a film. If you haven't bought your room's Christmas gifts for the kids, then make note of the Closeout Corner in Mundelein (in the Service Merchandise Plaza - next to Radio Shack), it's a great place to go and get

own plate to the party, leave your plate at home. Wrap your cookies 1 dozen on a plate and bring 11 plates to the party. You will come home with 11 different types of Christmas cookies and will have a lot of fun doing it. What a great way to get together over the holidays.

Rumor has it that the lodge is starting up a snowmobile club. Is it true? Stop by and ask Dan - get the truth from the horses' mouth!

And remember for all my friends out there who are older than me, 40 isn't old if you're a tree.

Call with your news!

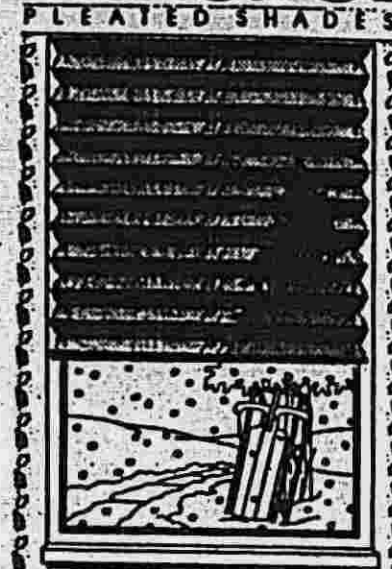

WE WOULD like to thank the Antioch Rescue Squad, Police, friends and relatives for their help and sympathy during the loss of our mother, Victoria J. Horton. Esther Gorman Anderson and William Horton TKU-50-27

Bike-A-Thon Proves Lucky

The 14th Annual Bike-A-Thon proved to be a lucky number for the Lake County Unit of the American Cancer Society, according to Event Chairman John Paul, Zion, who announced a \$26,948.96 contribution had resulted from the ride held in September.

The occasion was the Annual Victory Dinner, held in November, to recognize the top prize winners in the Bike-A-Thon, which is a major special event for the area Unit of the Cancer Society. Contributions are given to the Cancer Society through sponsors of the cyclists.

"This good news," Paul said, "it represents a \$5,000 increase from our 1984 Bike-A-Thon. This is an important increase in funds to be used

for the prevention, early detection and treatment of cancer in Illinois," he stressed; and continued, "We are very proud of each of you and happy to welcome you and your community chairman to the Victory Dinner given in your honor by McDonald's of Hawthorn Center."

The six-hour event is held simultaneously in eleven Lake County communities. Eleven 10-speed bikes were awarded to the first place winners who turned in the largest contribution for their route.

Participants in the Gurnee Route raised \$2,372.80 for the Lake County Unit. The top prize winner of the 10-speed bike was Roy Clark, who raised \$482.40 for the Society

through his sponsors. Mrs. Anita Clark was the Gurnee route chairman.

Other route chairmen and their first-place winners are: Sally Stoll, Lake Bluff/Lake Forest route chairman: winner, Gary Tucker; Gordon Theil, Waukegan chairman: winner, Tony Integlia; Bob Bohl, Mundelein chairman: winner, Tara Tschetter; James Moran, Libertyville chairman: winner, Jimmy Moran; Charles Bischoff and Bob Leavitt, Antioch Chairman: winner, Tom Hudd; Fox Lake Lioness Peggy Roberts, Fox Lake Chairman: winner, Kathy Broderick; Ross Zanzucchi, Grayslake Chairman: winner, Julie Bajokowski; Chris and Rich Stenzel, Round

Lake Chairman: winner, Sandra Clawson; Art Gundel, Zion/Winthrop Harbor Chairman: winner, Tammy Franks; and Suzi Schmidt, Lake Villa/Lindenhurst Chairman: winner, Ben Jansky.

School To Schedule Fundraiser

The Fremont School Dist. 79 PTSO will hold a Shop-and-Share fundraising program Monday through Wednesday, Dec. 16-18 at all Jewel Food Stores.

The PTSO board will also collecting non-perishable food items to be presented to the community's needy families for Christmas. Donations will be accepted through Wednesday, Dec. 18.

Biggest Party Slated Sunday

Lakeland's biggest Christmas party of the year will be staged Sunday, Dec. 15, at Holiday Park, Wooster Lake, for 300 needy children.

Sponsored by the Fox Lake Rotary Club, the popular Apple Tree restaurant will be turned over to the boys and girls for an afternoon of fun, food and a visit from Santa Claus.

Arrangements are being spearheaded by George Watson, who heads a committee of Rotarians.

The party originated a decade ago at Camp Duncan YM-CA.

School officials from the Fox Lake and Round Lake areas help prepare the invitation list and provide transportation for festivities beginning at 1:30 p.m.

Donations are obtained from area businesses. Food, money and toys are being accepted, Watson stated.

Supt. Ralph Stanton of Fox Lake Schools is in charge of fundraising.

Offer Training

Begin the New Year with a fresh approach to employment. Starting Jan. 6, 1986, Catholic Charities' pre-employment training classes will offer the training and practice needed to handle interviews with confidence.

Classes are scheduled Mondays, Tuesdays and Wednesdays, from 9 a.m. to noon over a four-week period at Catholic Charities' near North Center, 721 N. LaSalle Dr. in Chicago.

A \$2 donation is requested for the 12 sessions. Call early for registration and information: (312) 266-6100, ext. 422, 210, 237 and 214.

STYLELINE "INSIDE" MAGNETIC STORM WINDOWS

Save up to 50% of the energy now being lost through your windows

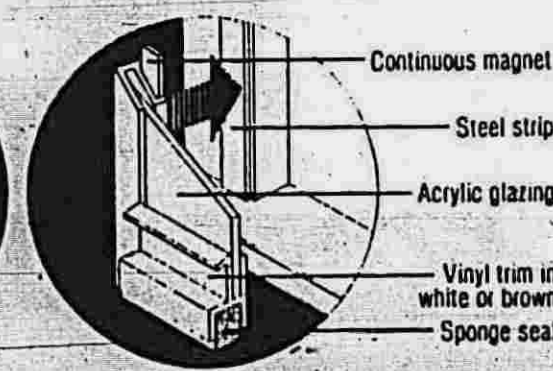

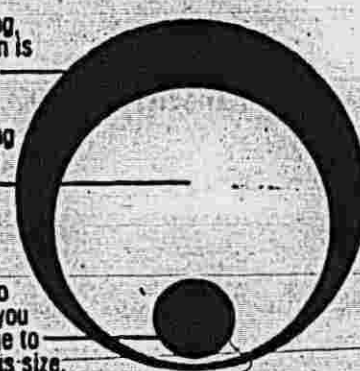

In winter, the tiny cracks around each window leak a lot of air, about the equivalent of a 4 inch hole right through the wall. And glass is a good conductor, stealing even more of your costly heat. If you add an aluminum

storm window, you only cut heat leaks about 25%. But when you install a Styleline magnetic insulating window, you cut air leaks over 90%. And its clear, acrylic pane has 2 times the R factor of glass!

With single glazing cold air infiltration is equal to a 4 inch hole in your wall.

With single glazing & storm windows you reduce the cold air to a 3 inch hole.

Add Styleline windows inside to single glazing & you reduce air leakage to an actual hole this size.

Health Dept. To Sponsor Des Plaines River Program

The Lake County Health Dept. will sponsor a program on the Des Plaines River Wetlands Demonstration Project on Friday, Dec. 13, from 9:30 a.m. to noon, at the health department, 3010 Grand Ave., Waukegan. The program is free and open to the public.

Donald Hey, Ph.D., executive director of Wetlands Research, Inc., will discuss the five-year, \$9 million dollar Des Plaines project, which is sited in the Village of Wadsworth, Newport Twp.

The project is financed by Funds from the U.S. fish and Wildlife Service and the State of Illinois Dept. of Energy and National Resources and by donations from various private corporations and individuals.

The purposes of the project, which is scheduled to begin in March, 1986, are flood control, water quality management, wildlife habitat creation, and enhancement of human recreation and aesthetics.

Dr. Hey has served as an

advisor on water issues to the State of Illinois and the Northeastern Illinois Planning Commission and has conducted numerous research studies for the U.S. Environmental Protection Agency. He has been involved in water resources management in northeastern Illinois for 20 years.

For further information, call Thomas Varchmin, environmental health division, Lake County Health Dept., at (312) 689-6742.

Anderson Bridles At Label Charges

Pat Anderson likes the idea of being his own man. He likes it more every day now that he's on the campaign trail, seeking a Republican nomination for the Lake County Board.

Maybe that's why it was easy in the end to shuck his tie with Dist. 4 Rep. Norman Geary, the hard-nosed political veteran who nurtured Anderson's career and was looking for his support for reelection.

Only now they're both scrambling for one of two nominations in the district covering Avon, Grant, Lake Villa and Antioch townships.

And the northwest sector of the county looks more every day like the hot-bed

other candidates."

This was a dig at reports that the veteran Grayslake politician will team up with William Mestan of Fox Lake, former lounge and restaurant owner, in the stretch drive for the March balloting.

Anderson indicated that he was offended by the appearance that Geary chose someone else. He said he shared his political aspirations with Geary along with his willingness to manage Geary's campaign.

The break came after a meeting Nov. 16 at Renwood Country Club hosted by Anderson for the purpose of rallying Geary supporters when Mestan was introduced as a possible running mate.

"I want to devote my life to politics and public service. It doesn't bother me to be leaving the job of highway commissioner. I've left safe jobs before," Anderson remarked.

Anderson said he had no problem finding support when the word spread that he was joining the race.

The aspiring politician indicated that his wife will be his closest political adviser. She is employed as an accountant for a brokerage firm and is working toward a certified public accountant (CPA) designation.

Anderson said he will focus his campaign on the preservation and improvement of our quality of life while allowing for controlled, quality growth in our communities.

"I think my background in politics and government and my willingness to work in community and civic affairs make me uniquely qualified to hold this office. My 16 years in public service with the Lake County Highway Dept., eight years as Precinct Committeeman, three years as President of the Avon Township Republican Club, and four years on

for the 1986 County Board primary, with one of the reasons, perhaps the main one, being the split between Geary and Anderson.

"I'm an independent thinker. I take full responsibility for my own actions," Anderson declared matter-of-factly when questioned about being cast in the role of the "ungrateful son."

Anderson, 39, acknowledged that Geary, dean of Lake County Board members and supervisor of Avon Township where Anderson serves as highway commissioner, has branded him a "pawn" and a "tool" of Geary's political enemies.

Asserting that he is offended by Geary's labels, Anderson declared that his decision to run for a GOP nomination was made on his own with his wife's encouragement and not, as Geary has declared, as the result of blandishments and deals from anti-Geary forces.

"I'm not anti-Geary," insisted Anderson, who looks much younger than his age. "I'm highly qualified for the County Board, certainly as well qualified as any of the

Elect Weidner To Head Board

At the annual meeting of the Lake County Fair Assn., 94 members voted in a new fair board president and a new director.

Ron Weidner, former director, will head the board and Ray Flood, past president, was elected the new vice president. Walt Krumery and John McNeill will remain on the board as secretary and treasurer respectively.

Dave Bonner was elected to the board of directors. Richard Lencioni and Earl Pegeow are the returning members of the board of directors.

The members heard the

treasurer's report that 1985's fair made a profit and there are greater financial expectations for 1986's fair.

SWAC Asks For Data Consultant

by GLORIA DAVIS

At an informational meeting of the Lake County Solid Waste Advisory Committee (SWAC), held on Dec. 4, there was more discussion on hiring a data base consultant.

The committee sent a request for a proposal to hire the consultant with the final date set for Dec. 13.

The plan is for the consultant to work on figures that tell how much waste Lake County generates and disposes of.

It is expected that the county board will act on the proposal for the consultant at a February meeting.

Another important discussion held at the meeting was on the committee's consideration of joining a coalition to develop proposals and provide testimony at public hearings on the new Public Utilities

Act that will take effect on Jan. 1.

Chicago, Lake County and the Metropolitan Sanitary Dist., among others, are considering joining such a coalition.

The purpose being the development of a schedule of higher buy-back rates to be paid small energy producers by utility companies.

According to SWAC representative, Bob Burlingham, the higher the rates imposed on the utility companies, the lower the tipping fees (cost of tipping garbage trucks at a dump site.)

The committee also decided to send four representatives to a waste energy conference set to be held from Feb. 18-21, in Tampa, Fla.

The next meeting of SWAC will be at 7:30 p.m., on Wednesday, Jan. 15, at the Libertyville Twp. Hall.

Shalek Receives Award

The National Assn. of Health Underwriters announces that Scott A. Shalek, 74 E. Grand Ave., Suite 101, Fox Lake, of The Principal Financial Group has qualified for the 1985 Health Insurance Quality Award "HIQA".

NAHU is the professional association for licensed disability and health insurance agents.

This award was created with the sole objective of promoting and recognizing the maintenance of quality business in the health insurance field. This is reflected by a high persistency standard. It is a means of giving national recognition to personnel producers who sell the right health insurance policy for the proper need to the great benefit of the industry and the public.

Editor's Viewpoint Energy Picture: A 'Can't Win' Landscape

by BILL SCHROEDER

As energy users, you and I are like a dog chasing his tail. When we dial down to conserve, there is less consumption and utilities have to raise prices to provide sufficient profits. When we throw caution to the winds, consuming recklessly or wastefully, utility sales soar as we the users generate profits. It's the classic Catch 22 situation.

The merry-go-round that is the energy story was documented by a survey conducted by the office of Roland W. Burris, Illinois state comptroller. It seems the best users can hope for is price stability so we can balance family budgets.

We're just coming out of a decade of uncertainty and unpredictability. Oil price gyrations caused dizzying fluctuations in useage of electricity and natural gas. The end result was that consumers paid more and more.

In 1975, private Illinois electric utilities received 3.66 cent/kilowatt hours used by residential customers and 2.00 cents/kilowatt hour used by industrial customers. Nine years later, those prices jumped to 8.90 cents for residential and 4.76 cents for industrial customers. Electric usage increased 12.9 billion kilowatt hours or 14.3 percent between 1975 and 1979, before declining 7.5 billion kilowatts or 7.3 percent between 1979 and 1982. In the past two years, sales had again increased by 8.7 billion kilowatts or 9.1 percent, to a total of 104.6 billion kilowatts.

The electric utility industry in Illinois is concluding a major expansion program which will increase the share of power generated from nuclear energy. A recent survey showed most new plants or additions would be nuclear, increasing the state's capacity by 27.8 percent. At the end of 1983, a Dept. of Energy survey indicated that Illinois electric power plants were fueled by coal (59.2 percent), nuclear (19.2 percent) and petroleum (20.2 percent).

Nuclear power plants are dependent on a growing economy to spread the high costs among a growing volume of sales. However, a new recession that reduces electric sales could create a price squeeze for some Illinois utilities, while large customers either produce their own power or purchase lower priced power from other utilities.

Natural gas prices have also experienced a substantial increase in Illinois, while sales have declined. Residential customers paid utilities \$5.18/million btu's in 1984, almost 3.3 times the \$1.57/million btu's paid in 1975. Commercial and industrial customers paid \$4.60/million btu's, over 3.5 times the \$1.30/million btu's paid in 1975. Sales of 9.5 billion therms in Illinois in 1984 were 1.1 billion therms or 10.4 percent less than 1975 sales. After exceeding 10.0 billion therms between 1975 and 1981, sales had fallen below this level during each of the past three years. And while the natural gas market was marked by shortages and higher prices during the 1970's, the current outlook is for plentiful supplies and stable prices. The prices of residential and commercial industrial gas declined in 1984, while sales increased for the first time in three years.

Happy holidays!

IMAGINATION—Never underestimate the imagination or ingenuity of young Americans. We never thought Ave Maria and

to the community of the desperate situation of our school district.

A tenet of our state's educational system is that by its nature a local school system requires local tax support. If we as a community cannot sacrifice for our children's education, then we are abdicating our responsibility. Our state government ranks education so low on its list of priorities as to fund education as an after-thought rather than a basic need.

It is heartening to see this community turn the corner toward a future of growth rather than stagnation. The entire community is to be congratulated for having the strength and wisdom to invest in our greatest assets - our children and our future.

Douglas A. Dunbar

a song from Fiddler on the Roof could be combined in one wedding ceremony, but that's exactly what Susan Kercher and Tom Bro, two young friends, did when they were married Thanksgiving weekend at Church of Saint Luke, River Forest. Sue and Tom typify young couples following tradition, we're told, in planning wedding ceremonies, yet they also blended in contemporary music and poetry to make an impressive rite for their exchange of wedding vows. The newlyweds will be setting up housekeeping in Long Lake.

STATE RECORD—Harold "Hutsi" Hertsberg, concessionaire at Illinois Beach State Park, Zion, with 32 years under his belt, is rated as having the longest tenure of any concessionaire in the state park system. The Winthrop Harbor resident admits to being "only in his 70's" and isn't ready for retirement yet.

NEVER SAY DIE—Old bandleaders never say die, they just keep getting their licks and kicks. Larry Leafblad, leader of the Scotch Lads, one of Lakeland's most popular bands for nearly 20 years, reports that he and his sidemen have decided to do six gigs a year—"for old times sake and besides the money ain't bad." They'll be the feature attraction at Gurnee Holiday Inn New Year's Eve—besides champagne and all the other Dec. 31 goodies.

FUN ANYWAY—Even though W.J. Murphy wasn't able to attend as honored guest, the Canvasback Club still had a successful game dinner the other night. The Canvasbackers, a collection of hunters and political cronies, had hoped W.J. would spark the 1985 event with tales from duck blinds and smoke-filled rooms, but he was unable to pull away from his Wisconsin digs.

NEW MEMBER—Devon Nelson of the Lakeland Newspapers' editorial staff is a new board member of the Lake County Community Action Project, serving as a media representative. A resident of Waukegan, she specializes in coverage of North Chicago and feature writing. She is a graduate of Southern Illinois University.

HOME BRIEFLY—One of the residents home for the holidays (briefly) is Marcy Kengott, former operator of Wooster Lake recreation center and picnic park who is perpetually on the go.

Marcy and her husband, Chuck, retired operator of a Waukegan foundry, are extolling the virtues of one of the airlines' current gimmicks—unlimited travel for a one-time ticket for retirees. "The one-time ticket comes in handy when you have children and relatives living in all parts of the country," Marcy chuckled.

Because they've been around the world twice and because of the special air travel ticket, the Kengotts are confining their junkets to domestic destinations. "That's one of the benefits of getting old," she laughed.

Eyes, Ears Don't Match

Every election year Lake County Republicans go through an elaborate screening process of candidates seeking nominations for the purpose of making endorsements for the primary election. Despite a certain amount of hoopla and considerable anticipation, seldom if ever does the political exercise result in any surprises.

The screeners do their best to listen to the aspirants coming before them, but they make certain to keep their eyes on the party power brokers to make sure bigwigs are not displeased. This year was no exception. No surprises, even including consideration of the office of county clerk, which appears to be the only county-wide contest on the ballot.

With customary courage, the screeners found both Dist. 4 County Board Rep. Donna Mae Litwiler of Ingleside and Wauconda Village Clerk Venita McConnell "qualified." The process called for a two-thirds vote to achieve endorsement status. In three votes, both Litwiler and McConnell failed to achieve

the required two-thirds vote, although we understand McConnell won a majority.

Litwiler's recognition by party gurus as being "qualified" is a victory of sorts for Sheriff Robert "Mickey" Babcox who has nurtured her political career ever since she helped keep the buffet table filled at Grant Township GOP shindigs. It might be beneficial, however, to offer party faithful and other interested observers an explanation of exactly what "qualified" means. We have a hunch that for some county GOP office holders, qualifications for public office depends on where the sheriff places his stamp of approval. Notable exceptions are County School Supt. William Thompson and Recorder Frank Nustra.

The best thing coming out of the endorsement session was the fact that the stage has been set for wide-open battle for the clerk's nomination. Now McConnell and Litwiler will be on their own and the voters will decide which one is qualified.

Hold The Salt, Please

Under pressure from environmentalists and budget constraints, salt slowly is losing favor as a product to control ice and snow on local highways.

Some years ago, the Illinois Dept. of Highways adopted a "bare pavement" policy in an effort to reduce winter driving hazards. Salt was the key ingredient. Tons of it. Other highway departments followed suit, salting highways so heavily in winter that the roadways were turned to ribbons of calcium chloride.

Quickly, though, it became apparent that the side effects of heavy highway salting were as severe or worse than slippery pavement. Automobiles were being turned to rust buckets in a few years and all sorts of

damage to the environment was being caused.

Now the thinking of highway officials is changing, as we mentioned, and new ways of keeping winter roads free of ice and snow are being implemented. One of the officials we are aware of who is cutting back drastically on salt is Antioch Twp. Highway Com. Mark Ring, who has decided to employ a five to one sand to salt ratio this winter compared to a three to one ratio of prior years.

Economics is making it easy for Ring to cut back on salt, which costs about \$23 per ton. Sand can be purchased for approximately \$2.50 per ton. Hold the salt, please!

Letters To The Editor

Proper Growth

Editor:

As an educator, a small businessman and member of the Round Lake Heights Zoning and Appeals Board, I would like to make a few comments regarding the special meeting held on Tuesday, Nov. 26, for the purpose of discussing the proposed 480-unit rental complex planned for our village, by Harcourt Development.

I realize that Mayor Claire Petrick is interested in the growth of our village, as are all residents of our village. However, I feel it is very important that this growth is planned, rather accidental. I feel that we, as a village should examine the possibilities of several options, such as light industry, single-family housing, rental units, etc., before developing a workable expansion plan. Once these options are explored and a tentative plan is developed, then the village and the property owner will know which developers to talk to, and which to ignore. Failure to plan properly results in villages being naive buyers of developers' plans. The result from that type of exchange is seldom favorable.

Second, putting rental units which run \$500 per month in an area of homes worth less than that, will result in the rental units being a liability, rather than a revenue source.

Renters who come in and rent an apartment with the amenities mentioned last night, are not going to save their money and buy an older home in Round Lake Heights. Therefore, the renters come in, double our population, educate their children in our schools, use our road(s) and then move on to a higher value area to buy their first home. We receive \$5 per year for a vehicle sticker, while property owner taxes increase to provide renter amenities. The net result is a liability for the village, not an asset.

Third, we are informed on a regular basis, via a newsletter at our door, about such things as brush collection, trick-or-treating restrictions, etc. Yet we are expected to find out about a move to double our village population from a two-inch obscure ad in a local newspaper. As a result, I'm really surprised that the meeting was as friendly as it was. I believe that village residents deserve to be better informed. Political candidates think nothing of going from door-to-door to get votes, yet once in office, they expect the people to come to their door instead.

Funding Education

Editor:

"It is a sad commentary on the concept of taxpayer support of public education when the public has to be bludgeoned with repeat referenda to get tax increases approved."

I agree wholeheartedly with this paragraph from your editorial of Nov. 21, 1985, but for vastly different reasons.

It is indeed sad that it required repeated efforts to make this community accept its responsibility to fund an adequate education for its youngest citizens. The repetitions of the referenda served as a needed reminder

Lakehurst Mall Looking Bright

Lakehurst Mall, in cooperation with Catholic Charities of Lake County and the Salvation Army, is starting a new tradition in the spirit of the holiday season. The Community Giving Tree, a large spruce displayed at the mall's Center Court, is the focus of a drive to provide gifts to area families in need.

The public is invited to contribute in one of two ways:

Visit the Giving Tree and obtain a "wish card" on which is listed the name of an individual and his or her three wishes, along with information such as age, size (shoes, shirt/blouse, etc.). Fulfill one (or all) of these wishes, gift-wrapped and return to the Giving Tree with the "wish card" on the outside. Shortly before Christmas, Catholic Charities of Lake County will distribute donated gifts to

the individual listed on the card.

The other way is to select any gift of your choice, gift wrap and indicate the gender, age-range of interest on a tag outside the package. These anonymous gifts will be distributed by the Salvation Army before Christmas.

From ceiling to floor, Lakehurst has been painted, re-carpeted, and beautified for a completely new look. Some stores have remodeled and redecorated to make holiday shopping even nicer.

The Lakehurst Merchants Assn. has unveiled a new Center Court Holiday display, designed to please the young (and the young at heart). The new Christmas display has attracted a lot of attention. It's a fun-filled setting, perfect for visits with Santa and for making holiday wishes come true.

Nutcracking Ideas For Crunchy Holiday Treats

Cracking nuts is an art, not a shell game, if you develop a technique. It has taken years to shed my heavy-handed manner. It's good to know for the holidays.

I apply middle-of-the-road pressure to my nutcracker, which doubles as a garlic press, to achieve almost perfect results. I say "almost" because it is impossible to remove the nuts whole every crack.

Placement of the nut is important, too. The almond, for instance, must stand long ends to cracker before squeezing. Again, you must watch the pressure, but the whole nut should come out more often than not. I like to use almonds with vegetables. But when the recipe calls for slivered or halved almonds, I buy them already packaged.

The most difficult to crack—not counting the chestnut, which must be slit and boiled—is the Brazil nut. The three-sided brown nut, which resembles a section of orange, requires heavy pressure, plus a pic, to free the solid, oily white meat. It goes great in rice stuffing.

The easiest nut to crack is the filbert. That's because the small nut is round and in one piece. I can crack a half dozen and digest the sweet meat in a minute. I just may squirrel some away to try in stuffing.

English walnuts, probably most everyone's favorite next to the peanut, is tricky. At best, it's a crack or miss proposition. But if you place the seams where the cracker meets the nut and apply a quick squeeze, the nut is yours at least in two halves. Walnuts are great in salads or stew.

I left the pecan off my list because it seems the only time I buy them is on vacation—from roadside stands or gift stores. My wife loves them; I don't. She has failed, however, to devise a fool-proof way to get them out perfectly halved. I may give it a try in a weak moment.

Here are some other nutty ideas for the holidays:

Garnish baked squash or sweet potatoes with chopped pecans.

Top fresh vegetables with slivered almonds.

Pilot Light GREG MELIKOV

Use walnut halves or quarters in salads other than Waldorf.

Stir fry almonds in chicken-vegetable dishes.

Try peanuts in tuna casserole.

Roll choppen walnuts or pecans into party cheese balls.

Put chopped chestnuts in turkey stuffing.

Ground any variety of nuts in a blender or food processor and mix with softened cream cheese for appetizers: bread spread, celery filling or dip.

Telephone Services Available As Gifts

Illinois Bell is introducing a new service this holiday season for shoppers wanting to send presents to people with the "gift of gab."

The company's new Gift Service lets customers give telephone service like Call Waiting or Threeway Calling as gifts to friends and relatives. Shoppers can order the services and receive a certificate to send as a greeting card or use as a stocking stuffer.

The Gift Service can be used throughout the year for birthdays and other gift-giving occasions.

"If you're looking for a unique present for that special someone who seems to always be on the phone, you can give them Call Waiting," said Richard Miller, community relations manager for the company's Custom Calling services.

"Call Waiting — one of a number of features that extends the capabilities of a customer's telephone line — lets you answer a second call while you put the first one on hold," Miller added.

"You'll benefit from your own gift because you no longer get busy signals when you call that person," he said. "The friend or loved one benefits because he or she doesn't have to worry about missing important calls."

When ordering any of the services as gifts, shoppers agree to pay the installation charge, and then can pay the monthly service charge for a predetermined period.

For example, giving Call Waiting to a friend costs \$29 for three months. A three-feature package including Call Waiting, Threeway Calling and Call Forwarding costs \$39.50 for three months.

The charges will appear on the shopper's Illinois Bell bill, and can be paid up front or in monthly installments.

"The Gift Service is ideal for the shopper who's looking for a different gift, and needs to defer payment," Miller said, adding that the company needs about a week to send the certificate and get the gift

recipient's service hooked up.

Interested holiday shoppers can call Illinois Bell at 1 (800) 535-6000, ext. 45, to order or get more information about gift ideas, prices and payment options.

Custom Calling services are currently available to about three out of every four Illinois Bell customers.

Museum To Hold Christmas Program

The Lake County Museum and the Lake County Museum Assn. are sponsoring an "Old Fashioned Christmas" program at the Lake County Museum on Sunday, Dec. 15.

The special feature of this year's program is a puppet show by Marilyn Price Puppets, presenting the story "The Little Engine That Could." After the show guests can make puppets with supplies provided by the museum. The puppet show

has been funded by a grant from the Waukegan Area Arts Council through the Illinois Arts Council.

Other program features include: paper ornament and card making workshops, horse-drawn wagon rides with Santa Claus, live folk music by Doug and Bonnie Isaacson-Miller of the Adler Cultural Center, a raffle of hand-made treasures and refreshments. The program and museum admission are \$2 each.

Adults May Be Victims Of 'Immunization Gap'

Parents are usually good about making sure their children receive all the immunizations they need to guard against serious childhood diseases. Many of these adults don't realize that they, too, may need "shots" to keep themselves healthy.

According to University of Illinois Extension health-education specialist, Joe Pankau, millions of adults are at risk for infectious diseases because they and their physicians haven't taken advantage of available vaccines.

For example, he says, nearly half of all American adults are not up-to-date on their 10-year booster for diphtheria and tetanus.

"It's especially important to check on the date of your last tetanus booster if your skin is cut or punctured by a dirty or rusty object," Pankau said.

Many young adults born after 1957 have never been vaccinated for measles and rubella, so they do not have immunity against these diseases. "Although we term measles and rubella 'childhood diseases,'" non-immunized adults are still at risk. The older we get, the more likely it is that serious complications will set in if we do contract the disease," Pankau states.

He says this group represents an "immunization gap." Another immunization gap exists among teens and young adults who were vaccinated for measles between 1963 and 1967.

"Young people who were vaccinated during this time with inactivated measles virus that was then available, or with a measles vaccine of an unknown type, should be revaccinated with live measles virus vaccine," Pankau said.

Persons are considered immune to rubella only if they have a record of a rubella vaccination on or after their first birthday, or laboratory evidence of immunity.

Women of child-bearing age who have not been vaccinated against rubella and do not have natural immunity, should receive the rubella vaccine under the direction of their physician. "Otherwise, if a pregnant woman gets rubella, the infection can harm the unborn baby," says Pankau.

Pankau also recommends annual flu injections for anyone over 65 years of age. In addition, flu shots are recommended for younger people with chronic lung diseases, heart, kidney disease, diabetes and chronic anemia. Only about 20 percent of the people who should be receiving these vaccines are doing so.

Although most people don't need to worry about hepatitis, it is a serious threat to those in high-risk groups. Pankau says a relatively new, effective vaccine against hepatitis B is now available.

This vaccine should be given, according to the American College of Physicians, to "at-risk" health professionals, homosexuals, drug abusers and certain others. However, no more than about 20 percent of any of these groups have been immunized.

The American College of Physicians has set up a special committee that is informing the medical profession about the need and the availability of "adult" vaccines, Pankau said.

"This professional group is concerned about the number of adults who are at risk for disease because they have not taken advantage of the available vaccines. Immunization is a routine measure in pediatric practice, but the committee says it is not usually routine in the practice of physicians who treat adults.

The next time we adults visit our physicians, we need to inquire about the vaccinations we need to be brought up-to-date on," he concluded.

Antioch Ties For Lead, Ready For Lake Forest

The Antioch varsity basketball squad is set to face the Lake Forest Scouts at Lake Forest on Friday, Dec. 13.

The Sequoits are hoping that will be an unlucky Friday the 13th for the Scouts with Antioch Coach Don Zeman working on trying to prevent the outside scoring that the Scouts are well-known for.

"They're shorter than we are but they are good shooters," said Zeman.

Then on Saturday, Dec. 14, the Sequoits will travel to North Chicago's home court to compete against the Warhawks and one of the best centers in the conference, J.C. Coleman (6-6).

The Sequoits are planning on stopping the Warhawks offensively and trying to keep them from scoring

from the middle.

The Sequoits are 3-2 overall and 2-0 in North Suburban Conference play, tied for the conference lead with Warren going into Friday's game.

Antioch won those two conference games, against Niles North, 43-40, and against Mundelein, 64-50.

Matt Weber was Antioch's star in the Niles game, not only sinking the winning lay-up in the last 11 seconds of the game, but he accounted for half of the Sequoit's points (19), 10 rebounds and two assists.

Don Gunther was responsible for 12 of Antioch's points.

The Sequoits were behind 19-21 at half time but Gunther scored eight in the third to put Antioch ahead.

With 21 seconds left in the

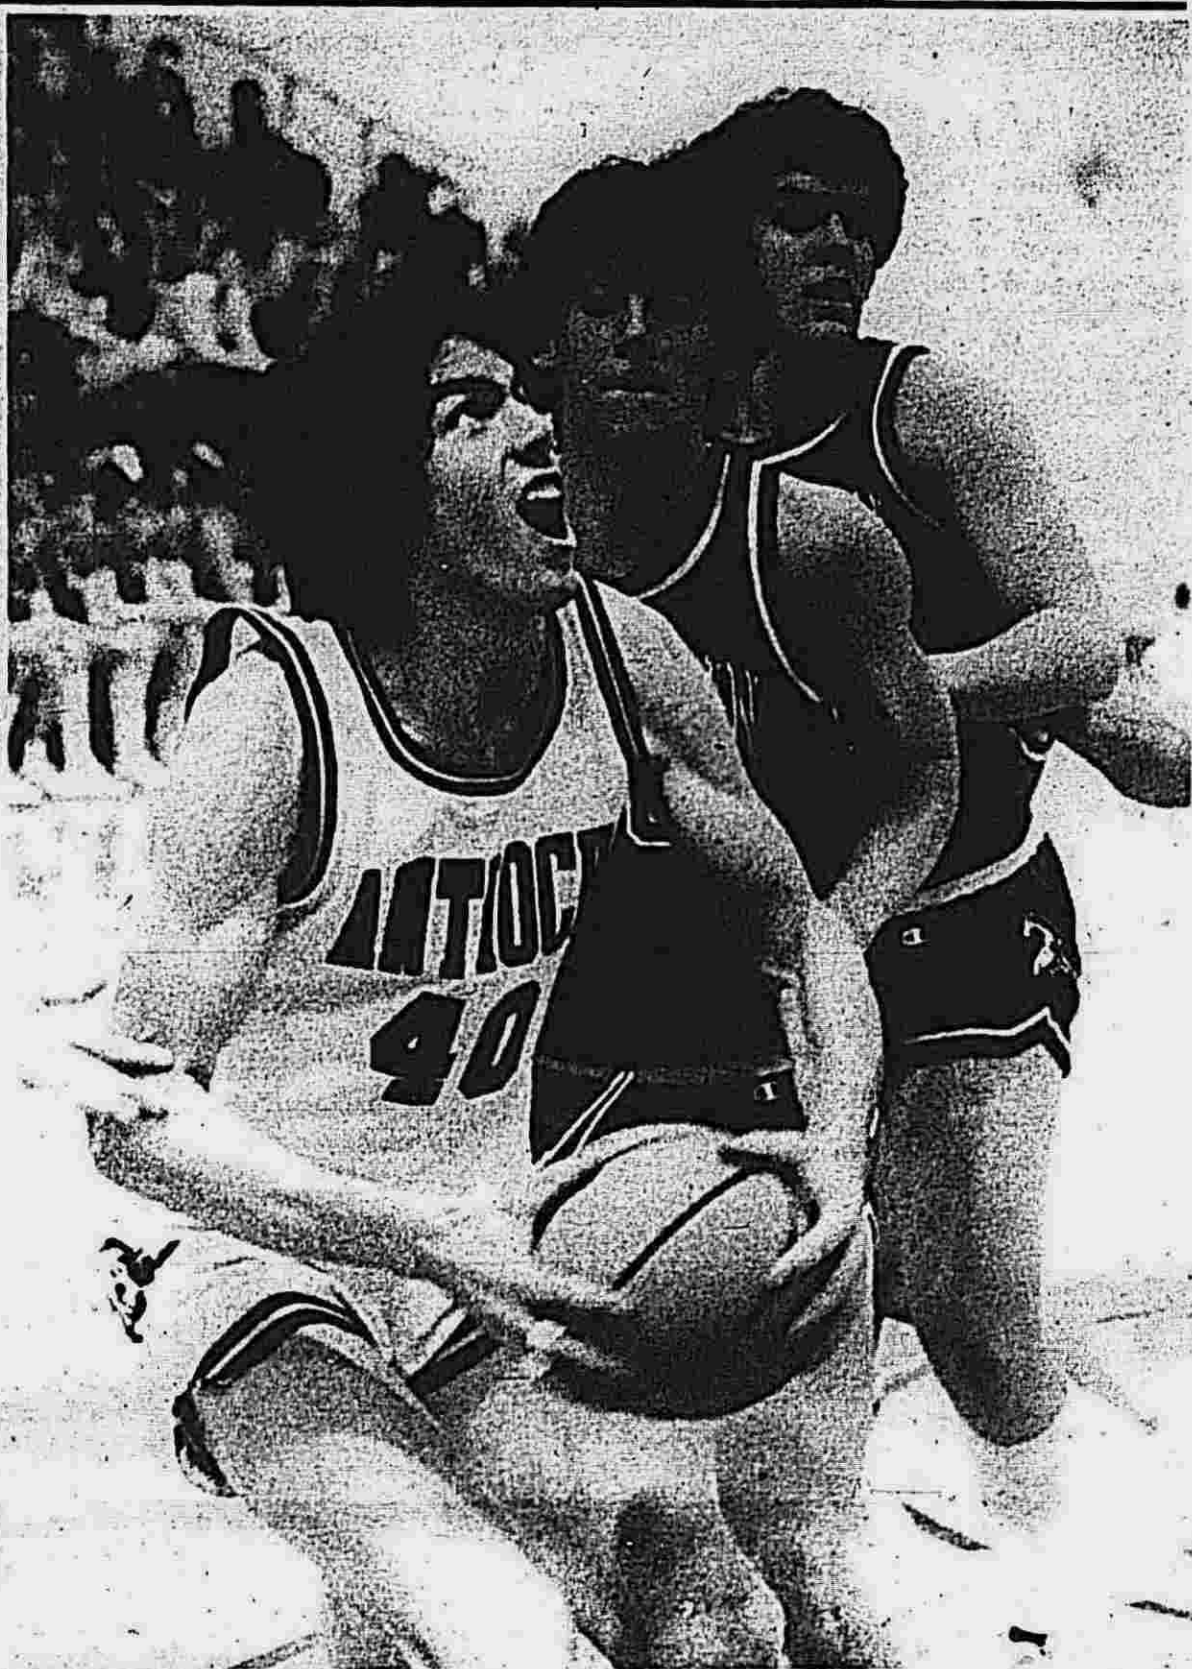

game and a tie-score, Weber sank his lay-up to bring the win home to Antioch just before the final whistle blew.

Antioch's win over Mundelein was one that Zeman really wanted with the Mustangs rated as one of the conference's top contenders this year.

It was Gunther for 12 with five rebounds and Rick Reitmayer's 10 with seven rebounds that led the Sequoits home.

Gunther is credited with holding Jay Retzinger, Mundelein's 6-5 forward, to five points in the first half of the game, allowing Antioch to gain the control that they never lost.

Pat Bruks' defensive playing and the pressure he was able to continually exert was another key to the Sequoit's win.

Grayslake Playing Like NWSC Defending Champs

by DANG O'SHEA

The Grayslake Rams play at Lake Zurich Friday night, Dec. 13 in a Northwest Suburban Conference contest as they try to defend their conference championship. They were scheduled to host Cary Grove Dec. 10, but results were not available at press time.

The Rams started playing like defending champions last week as they defeated Wauconda in their conference opener, after beating a tough McHenry team.

The Rams were victorious at McHenry Dec. 3 in a non-conference game by a score of 51-41. It was the first time

in several years that Grayslake had beaten the Warriors. "I believe it's the first time in my eight years here (at Grayslake) that we beat them," said Head Coach Groth.

Tom Castino played an outstanding game, scoring 23 points, including 11 out of 12 from the free throw line and 10 of his first 10. He also scored 10 straight points for the Rams in the third quarter.

Collectively, the Rams made close to 70 percent of their free throws. Before the McHenry game, Grayslake was the third worst team in Lake County in free throw shooting.

The Rams beat Wauconda in a tough contest Dec. 6, 56-

52. Guard Butch LeNoir sank two free throws with three seconds left to insure the victory.

Castino led the Rams in scoring with 13 points and LeNoir followed with 11. Forward Daryl Mackenthun and center Bill Sangbusch each had nine points. Mackenthun had seven in the first quarter and Sangbusch had seven in the first half.

"LeNoir played a good game. He had great composure," said Groth, "and Mackenthun really kept us in the first half."

Castino leads the team in scoring after six games with 75 points. Forward John Lui is free throw leader with 12 of 17 for 71 percent.

Bulldogs Get Incentive To Play Even Harder

by JENNI PARMALEE

Even with their best performance of the season, the Wauconda Bulldogs dropped their fifth in a row with a 56-52 loss to the Grayslake Rams, on Dec. 6.

"I'm not the least bit disappointed," Wauconda Coach Chuck Neary said.

The Bulldogs defense showed significant improvement. In what had been a weakness earlier in the season, the Bulldogs out-rebounded Grayslake, 21-18.

Defensively, we played a good game with some intensity," Neary said. "Mike Thirtle did an outstanding job defensively."

Neary also commended Paul Nibbio. The senior guard held his counterpart, Tom Castino, to 13 points compared to the 20 points Castino scored against Wauconda in the Thanksgiving Tournament. The only other Ram to score in double-figures was junior Butch Lenior (6-0) who had 11 points.

Nibbio had 16 points of his own as the game's leading scorer. Bulldogs' Mike Thirtle and junior Pat Schaller were close behind with 11 and 14 points, respectively.

The first half was a saw-saw battle. Grayslake held the greatest margin when they led 9-4 and 11-6 midway through the first quarter.

The teams went on to tie seven times before halftime.

After Wauconda's Schaller scored on a foul shot, the teams were deadlocked at 26-26 with 1:30 to go in the half. Fourteen seconds later, Ram center Ken Melton converted off a pass to the inside to put the Rams ahead by two. The margin was increased to four when senior Bill Sangbusch hit a 13-footer at the buzzer to send Grayslake to the lockerroom with a 30-26 lead at halftime.

This was typical of the aggressive offense of Grayslake. "They had 15 offensive rebounds to our five," Neary said. "That was a major factor."

Although Grayslake only shot for 39 percent, the Rams attempted 62 shots compared to 33 for Wauconda. The Bulldogs sunk 17 of those 33 shots for 51 percent.

After a constant battle for the lead, the Bulldogs took control late in the third quarter.

Schaller scored on a lay-up at 1:29 and a free throw at the 1:00 mark. Nibbio sunk a 16-foot shot to give Wauconda a 45-40 lead at the end of the third period.

The Rams quickly edged away at the lead and the fourth proved to be as nail-biting as the previous quarters.

With 1:20 left, Nibbio dropped another outside shot to draw the Bulldogs within one. Ram senior Kelly Bye increased the lead to 54-52 with a foul shot at the :37 mark.

The Bulldogs had an opportunity with :14 left, but the free throw was missed. After the Rams returned the favor, also missing a foul shot, Wauconda got the ball back. A high pressure shot for the Bulldogs with :04 left bounced off the rim.

The Rams drove the last nail in the coffin when Butch Lenior hit both free throw shots with :03 remaining to end the scoring at 56-52.

"The fourth quarter was when we lost the ballgame," Neary said. "We went 1-4 at the free throw line and two were 1-1 situations."

For the game, the Bulldogs hit 18 of 30 free throws. "Right there was one spot where we could've won the game," Neary said.

The Bulldogs continued to give up the ball. Wauconda had 18 turnovers to only eight for Grayslake.

The Bulldogs will face the Marengo Indians on Thursday, Dec. 12. "They're a very good team," Neary said. "But just like today we're picked to lose and that only gives us more incentive to play harder."

Bulldogs Gear Up For Marengo

by KAREN WILTBERGER: After winning three games in a row, the Grant Bulldogs are gearing up for two of their toughest competitions of the year—Marengo and Round Lake.

The Bulldogs will travel to Marengo on Friday, Dec. 13, and to Round Lake on Friday, Dec. 20 for their first bout this season against highly favored teams in the Northwest Suburban Conference.

The young Grant team is on the verge of becoming a legitimate contender in the conference, said head coach Tom Maple, and these two games will be a chance to prove it.

If Grant beats Marengo and Round Lake in the away games early in the season that will put the Bulldogs one step higher, Maple said. But the team is young and they will have even a greater chance later in the season, he added.

"I'm happy with their progress," said Maple.

"We're progressing every game."

Cutting down on turnovers will be a main concern for Maple as he gears his Bulldogs up for the weekend. "Defensively, we've turned the corners there and hope to continue," he added.

Over the weekend the Bulldogs played their best defensive game of the year giving McHenry only 38 points. The 51-38 victory over McHenry was led offensively by Ron Richford with 15 points, Tom Barr with 12 points and Marc Borton with 11 points. Barr and Richford also led the team's rebounding efforts.

The Bulldogs also beat Marian Central in a sound 52-43 conference game where they led the scoring all the way. Borton led the team with 12 points, 10 rebounds, five assists, five recoveries and no turnovers.

The Bulldogs will be 1-0 in the conference (4-3 overall) when they take on top-rated Marengo on Friday.

Warren Makes Comeback, 3-2

The Warren Blue Devils varsity basketball team conquered North Chicago on Dec. 6, 59-43, and continued their scourge on Dec. 7, defeating Stevenson, 61-40.

"We played real good team defense," coach Darrell Bader said. "We started Danny Kerpan and Pat Kowalski on guard positions; that gave us flexibility."

Against North Chicago, leading rebounder Brian Jarrell (6-4) scored 29 points and Joel Elfering (5-11) scored 12.

"Al Davis did a good job on defense," Bader said.

In the Dec. 7 game, Jarrell was once again the leading scorer, with 17 points. Elfering scored 13 and Bob Bell (6-5) scored 12.

The Blue Devils will take on Niles North at Niles on Friday, Dec. 13 at 8 p.m., and the Mundelein Mustangs at home on Saturday, Dec. 14 at 7:30 p.m.

With an overall record of 3-2 and a league record of 2-0, Bader approaches the upcoming games "one at a time."

"It's too early in the season to decide who's good and who's bad," he said.

Earns Letter

A former four-sport standout at Watseka High School, Tim Duax has earned a varsity letter for his contributions to the Dartmouth College football team this past fall.

Duax was second on the team in rushing with 422 yards on 101 carries for a 4.2 yard average gain and scored three touchdowns.

A senior history major, Duax plans to pursue a career in law. Tim is the son of Mr. and Mrs. Michael Duax of Round Lake, formerly of Watseka.

Tony-Rod Duel Sparks Opener

Carmel's first home game of the new basketball season turned out to be the Tony and Rod show. And an exciting match it was between two ace prep cagers.

In the end, Tony Freeman of the St. Joseph Chargers bested the Corsairs' Rod Whittier 32 to 25 in points. He led the team in kickoff returns for the second consecutive season, gaining 225 yards on 13 returns.

Also a sprinter on the Dartmouth track team, Duax had his best game of the season against Cornell. He replaced an injured Dartmouth tailback in the second quarter and proceeded to rush for 164 yards, 151 of those in the second half, as Dartmouth topped Cornell, 20-17. His effort in that game earned him Co-Lvy Player of the Week recognition. The 164-yard performance was the ninth-best afternoon of rushing by a Dartmouth back in the school's history.

Just season. Both teams have vastly different supporting casts this year. It's still too early to tell whether either quintet will be in the title fray all the way. And the outcome Friday night, Dec. 6, might have been different had not Carmel's sharpshooter and ball handling whiz Rodney Lambright been sitting on the bench nursing an ankle sprained in the Mundelein Thanksgiving tournament.

The 5-7 Freeman and 5-9 Whittier went at each other right away, appearing to want to settle scores from last season when the two rivals split. They traded baskets to end the first quarter at 14-all.

Then Gene Pingatore, the wily Charger coach, got his athletes to get some transition action going, providing a spurt that Carmel couldn't overcome. It was 30-25 at the half.

The Corsairs closed to 33-32 momentarily in the third quarter on a basket by George France, but then St.

Joseph started running again and held a 44-37 third quarter advantage.

With action becoming a bit ragged in the fourth quarter, Pingatore sat Freeman down at one point briefly when he clumsily fouled Whittier.

Corsair Coach Frank Belmont wasn't totally dissatisfied with the Carmel effort, especially with one of his leaders out of commission. You got the impression that when Carmel and St. Joseph meet later that things will be different.

The St. Joseph's loss was Carmel's third defeat in five games and first in the conference.

Carmel's sophs notched their fifth consecutive win when Jeff Kalk of Zion hit a 20 footer with three seconds remaining for a 42-41 victory. Scott Stahowiak of Grayslake led Carmel with 20 points.

The Corsairs travel to St. Viator of Arlington Heights Friday night, Dec. 13, and entertain Notre Dame of Niles Saturday night.

TIME OUT!

A Look At Sports Around Lake County

By Joel Wiltberger

There he is, coming up from his weight room downstairs (it used to be the tv room) after a strenuous workout. He'll go take a shower and slip into his third change of clothing for the day, take over the couch in his Levi straight legs and short sleeved sports shirt (imported from the "GAP") and his \$60 pair of Nike basketball shoes.

Who is this person who has never seen the inside of K-Mart or Zayre? It's the monster I helped create. I'm thinking to myself as I'm rummaging through the paper looking for sales and coupons, recollections in my J.C. Penney jeans and shirt.

What happened? What went wrong? I was always there through grade school and junior high waiting for the big time-high school when we could do things together—go to football games, basketball games, discuss strategy, get into the finer points as to how and why our favorite team won or lost.

Except for an occasional need for an advisor, it's not happening. "Saturday this time," he's calling on the phone, practices, games, homework and only building has all but used up the time I patiently waited for all these years.

Wait a minute, there is a glimmer of light at the end of this tunnel! Next year he gets his driver's permit, suggesting to need a licensed driver with him. He's going to drive. I'll be ready for him then!

CCCCC

A Look Around The County:

It looks like it will be a dog fight in both the Northwest Suburban and North Suburban Conferences for the top spots in boys basketball. Maybe in a couple of weeks, after all the holiday tournaments are over, we'll have a better line on who to watch in both conferences.

CCCCC

A Look Back:

The 1971 Antioch Sequoias (12-2 in conference, 23-6 overall) were co-champions in the Northwest Suburban with the Grant Bulldogs (12-2 in conference, 16-9 overall).

The Sequoias were led by Keith Bolton, Tom Martin, Tim Miere, Pat Michalak and Steve Bentel. They defeated Grant in the district finals that year 69-47 to capture the rubber game in head-to-head play with the bulldogs.

Over a three-year period, Bolton had 1582 points in 81 games for a 19.5 average to become the top scorer in Sequoias history, but he couldn't come close to the mark of 1789 set by Grants Lee Oler, who that year as a junior for the Wisconsin Badgers in the Big Ten, was awarded the Jimmy Demetral Free Throw Trophy, canning 44 out of 59 attempts for a .831 average.

Also that year Mickey McCarty, who set the scoring pace for the Round Lake Panthers three years earlier, was a sophomore on the Navy basketball team at Annapolis, Md.

Panthers Will Try To Bounce Back

The Round Lake Panthers will try to even their Northwest Suburban Conference mark when they host Grant on Friday, Dec. 13, starting at 7:30 p.m.

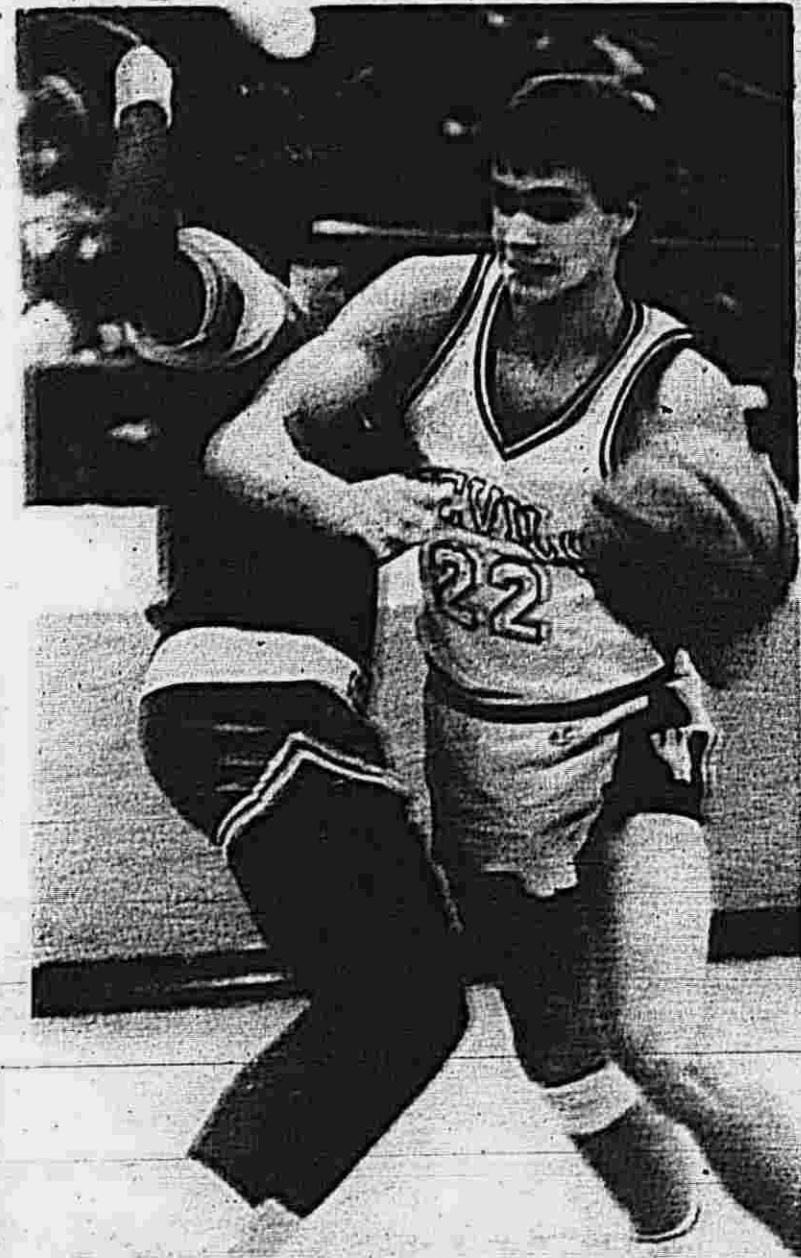

The Panthers are currently 0-1 in the conference after losing to Marengo last weekend 53-43 in their conference opener.

Round Lake, 4-1 overall, led 26-20 at the half, but the Indians blew it wide open with a 17-6 spurt in the third quarter.

Head coach Bob Ward was very disappointed in his team's third quarter performance as they were outplayed and outthrust by the Indians.

Senior Frank Ptak led the Panthers in scoring with 17 points, while Greg Kreitner chipped in with 14.

Round Lake was scheduled to host Woodstock Dec. 10, but results were not available at press time.

Tight Defense

The North Chicago Warhawks tried to play tight defense against the Warren Blue Devils Dec. 6, but couldn't prevail as they lost 59-43. Here, Warren's Dan Kerpan, 22, tries to get by a North Chicago defender.—Photo by Craig Vogel.

School Has Students Raising Self Images

by DAVID ZINN

Ever wanted to unlock your bodies' potential, praise your self image, or just make yourself feel better?

Round Lake Senior High

School students, athletes and faculty members are doing so and are glad they are doing it.

Each Monday, Wednesday and Friday, from 5 to 6:30 a.m., or 3:30 to 5 p.m., the high school offers a weight

training program supervised by Rob Rummel.

Rummel, who is a member of the national Strength and Conditioning Assn., took classes on how to supervise and set up programs in all phases of weight training ac-

cording to a given sport.

"Weight training is an important part of sports," says Rummel. "It makes you better players and it makes you feel better about yourself."

The supervisors are there to help and improve in the weight training process and follow the three main rules: safety, good form and the addition of weight to a program.

"It makes athletes stronger and if one was in-

jured, weight training helps them recover quicker," he said.

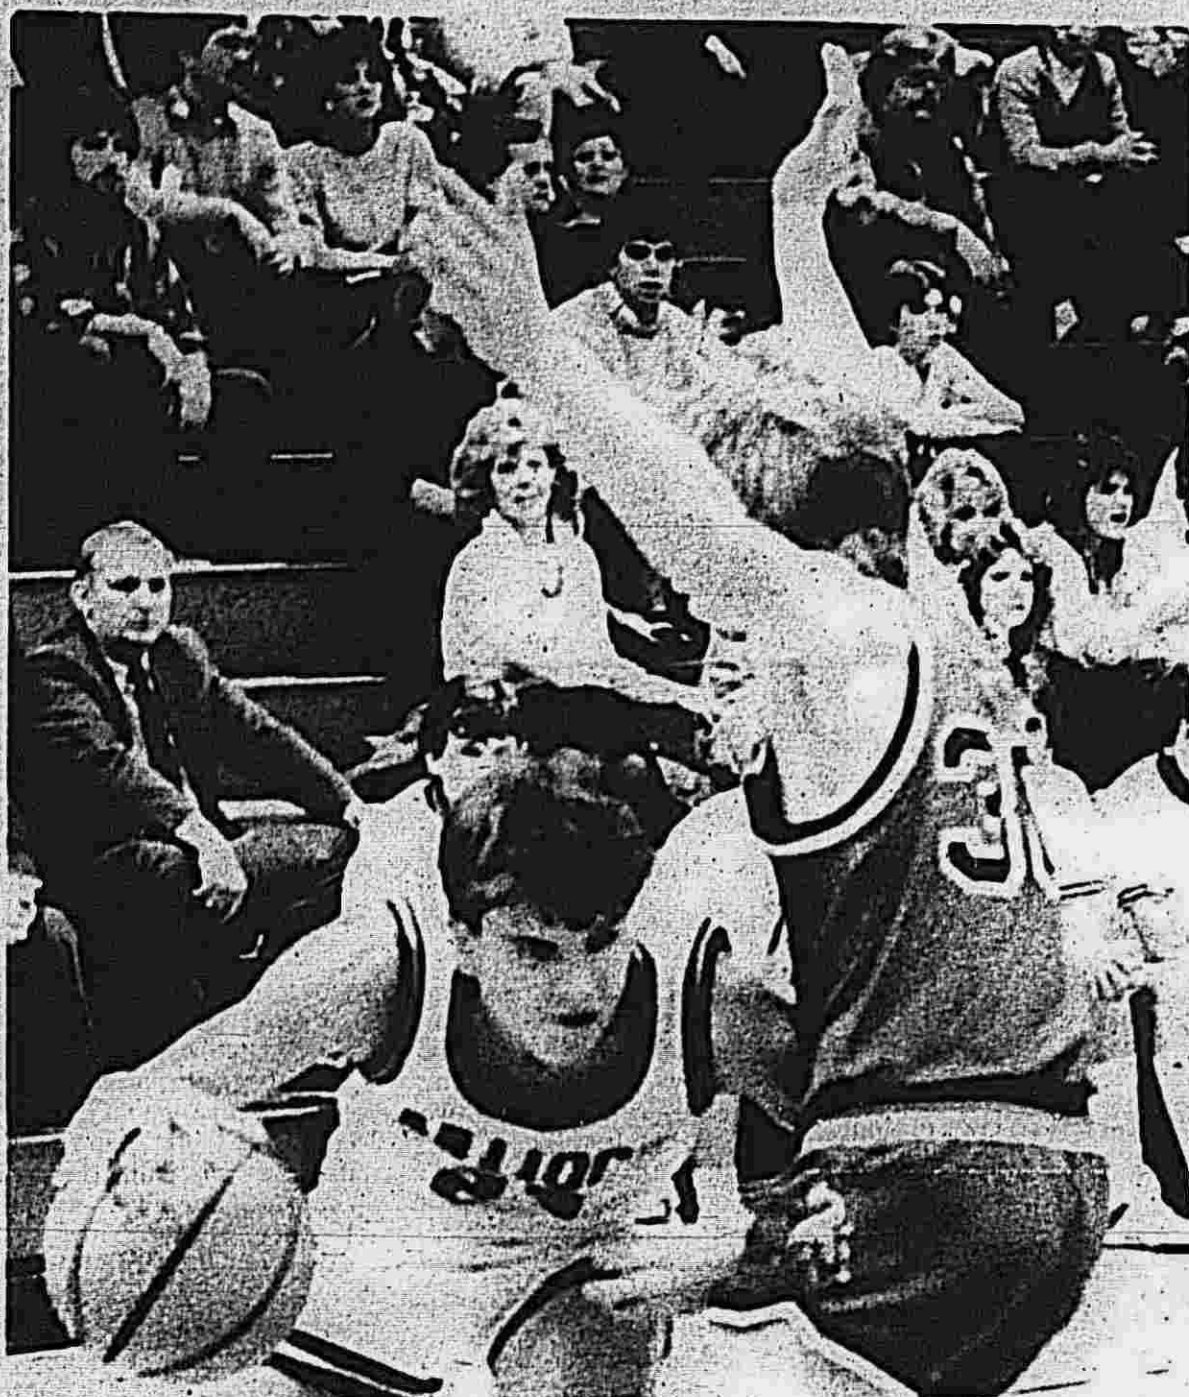

The high school has one of the best facilities in the county, mainly because of donations from the Round Lake Area Youth Council.

The council was disbanded and had money to spend, so with the help of former coaches, Dave Channel, Jim Prorock, Jim Rogers and Athletic Director Ken

Ricci, the program got money for equipment and an area with a new floor and walls.

"The community output has been fantastic and the Panther Pushers have been a plus," Rummel said.

"But it is only as good as the people who run it, and the coaches and students have had a super attitude and work very hard," he added.

Hofmeister Continues NWSC Rich Tradition

by DAVID ZINN

Forget Bobby Knight at Indiana, or Lou Carnesecca at St. Johns. The name to remember this year in basketball is Doug Hofmeister of the Johnsbury Skyhawks.

Hofmeister, in his first year at Johnsbury, takes over for Ben Beck who had minimal success with last year's 8-17 (4-10 in Conference) team.

Hofmeister coached six years at Lone Tree Iowa and had a remarkable 64-6 record during the last three years. Just this past year, he led Lone Tree to a 25-0 record and the class A championship.

"It was time to go on," Hofmeister said, "you get tired of one place."

Hofmeister, who didn't even come to Johnsbury until August, feels "it's time to test the water someplace else."

"With a new program and

new kids, we basically started from scratch this year," he said. "We're developing a feeder system at the lower levels so the kids will be ready when they get here."

With a new coach comes a new style of play. "We'll run when we can," says Hofmeister, "but we're not a run-and-gun team." "We'll make things happen and our defense will play well," he added.

Bill Hurckes, who was the freshman coach last year, is Hofmeister's assistant.

"He is a Johnsbury native, he has been a teacher here four years so he really knows the kids," explains Hofmeister.

"We'll really surprise people," he said, "and we'll get a tradition going."

Bob Ward started a tradition a year ago at Round Lake and Tom Maple has a tradition at Grant, so Doug Hofmeister at Johnsbury continues something

already rich in the Northwest Suburban Conference.

Seek To Even Record

The Johnsbury Skyhawks will be looking to turn around an early 0-1 conference record on Friday when they travel to Marian Central and try to capture their first conference win.

The Skyhawks came out on a short end of a 65-44 score against Lake Zurich on Friday, but bounced back on Saturday by beating Hampshire in a non-conference game 58-42.

The 4-2 overall team was disappointed over the conference game loss, said coach Doug Hofmeister, but it was a good test and they have the potential to even up the record.

Your Pet Needs You Most In His Old Age

by CHARLENE WHITNEY

It is always fun to pick out a puppy or kitten and bring it home. They are so much fun to play with and so cute and cuddly to hold.

As the pet grows up, they become well-trained if you work with them. They become beautiful and fun to have around.

If you have taken care of your pet, chances are you will have him into his old age. You had many good years together and many happy memories. Now your pet is at the stage of his life when he needs you most.

He may need special care besides all the good care you've been giving him. An old dog or cat should not be expected to live outdoors, even if he has been doing so before. He should be kept away from drafts to prevent

chills and you should not put his bed near extreme heat.

Don't push your pet to play or over-exert himself. However, some exercise is good for him. Perhaps shorter times of play or shorter walks would be best.

If you plan to take your pet outside the home, be sure and keep him on a leash. If his hearing and or sight is deteriorating, he would be safer on a leash next to you. He could get hit by a car, bicyclists, or even tangle with another dog.

You might notice the aging process in your pet. Gray hairs, a drier, duller coat and hazy eyes are signs of aging. He might be less active and have trouble going up and down stairs. He might suffer shortness of breath when he exercises.

Be aware of changes and

adjust to his needs. If he has always been in good health, you should begin to increase his regular check-ups with your vet. Early detection and treatment of illnesses can improve your dog's chances for an extended and healthy life.

facilities as well as fatigue. He may have kidney trouble. Should he begin to drink excessive amounts of water and urinate frequently, it could be the kidneys.

Arthritis in the leg, hip and shoulders is common. Check with your vet to see if

found in older dogs and cats. Lung and skin tumors are common. Females can get breast tumors, but about half of these are benign. Males may get testicular tumors. In any case, have your vet remove them surgically and test them.

Few pets reach normal old age. If you are one of those people who really took care of your pet, he is likely to be with you longer. Many pets die fairly young by accident or direct intervention by people. Keeping up with the shots needed and health checks with your vet help

considerably. Good balanced diet, shelter, love, water and care will help these pets to live a long happy life. Sooner or later, you may have to let go if your pet doesn't die naturally. Should his body be in great pain and function poorly, the vet can give a painless injection that will put him to sleep in seconds. Don't make your pet suffer because you can't let go. Love him enough to let him be free of pain. Until that time, the vet will help you and your pet feel good and have many happy hours together. After all, that is what life is all about.

Pet-Wise

You can expect some of the common medical problems with your older pet. He can get a diseased heart valve. Watch for coughing and breathing dif-

Forney Firm Marking 50th Year In County

J.C. Forney & Co., one of the oldest real estate businesses in Lake County, is celebrating 50 years of continuous activity and ser-

vice to the community, with the largest annual volume in its history.

Founded in 1935 by Joseph C. Reuse, the company has

played a major part in the growth and development of the Libertyville-Mundelein-Vernon Hills area. Countryside Lake, Libertyville, Highlands, Oak Spring Woods, Rockland Woods, and Copeland Manor are some of the early developments.

Since 1964 the company's industrial division has developed Allanson Industrial Park, phase II of Mundelein Industrial Park; and it is currently developing and promoting sales in Butterfield 60 and Zion Industrial Park.

Jack Forney is a graduate of Penn State University and continued graduate studies in economics at Northwestern and Harvard; and he holds the G.R.I. degree from the Realtors Institute of Illinois.

Long active in civic affairs, Forney was one of the founders of Adler Park in Libertyville and served as the first president of the Central YMCA. He also served eight years as trustee on the Libertyville village board plus 22 years on the Fire and Police Commission. Jack is past president of the Rotary Club and the Chamber of Commerce and is the very proud possessor of the coveted Silver Beaver Award from the Boy Scout Council.

In 1979 he was president of the Lake County Board of Realtors, and was selected as Realtor of the Year in 1981.

The firm's staff includes all licensed professionals with excellent training and experience. They are thoroughly familiar with the amenities and the

demographics of Lake County, and each one is a property owner within the county. While specializing in certain phases of real estate including residential, commercial, industrial, farms, investment syndication, rentals etc., each person lends his expertise to the others—thus providing a complete overall service to their customers.

In describing the Company's success formula, Forney said "There's no substitute for experience and local acceptance, earned by maintaining the highest standards of integrity, professionalism and service to our clients and customers."

Over the years the company has assisted many families in relocating to and from this area—and it has helped many commercial

and industrial concerns find suitable locations for their facilities in this dynamic area. A large number of firms have started in local "incubator buildings" with relatively small rental space, and in a few years they have expanded into their own buildings or larger rental units. "One of our greatest rewards," says Forney, "is to observe the growth and success experienced by a customer whom we have assisted."

The company's active staff and management team is comprised of J.C. Forney, James Page, Charles Blythe, William Rohrer, Elaine Scoglio, Frank Ryder, Craig Anderson, Gene Shepard and Paul Vander Weele. This is a combined total of nearly 150 years of real estate experience.

Insurance Costs Going Up

Buying some types of insurance in 1986 may be like playing high stakes Russian roulette. It will be more expensive to get in the game and any mistake could be costly, warns a leading insurance broker.

Richard D. Cain, President of Cain Agencies, Inc., says that both individuals and businesses must allow several months time to shop for coverage due to rising premiums and shrinking availability of some types of insurance. Work should begin now for policies that must be renewed in January or February according to Cain.

Cain reports his clients are experiencing premium increases of 15 percent - 20 percent for auto and homeowners coverage. Businesses are receiving as much as 100 percent or more for increases.

Cain notes that every insurance buyer can help save money and headaches by following a few simple steps:

1. **AUTOMOBILE** - Purchase high liability limits and increase the deductible on physical damage. This could cut premium as much as 20 percent. Taking advantage of every available discount for alarms, driver training and multiple car policies could save another 20 percent.

2. **HOMEOWNERS** - Be sure homeowners coverage includes high liability limits and specifically list expensive items such as furs, jewelry, stereos, fine art and silver. Keep an inventory of all personal property and take photographs and store in a safe deposit box. Many policies offer discounts for smoke and burglar alarms.

3. **CONDOMINIUM OWNERS** - Maintain adequate coverage, especially for improvements, additions or alterations to the unit. Also review coverage on special assessment due to loss.

4. Be sure to have adequate coverage for motorcycles, boats, snowmobiles and other recreational vehicles. Non-standard equipment such as CB radios, mobile telephones and camper bodies should also be listed and have adequate coverage.

5. **BUSINESSES** - Review carefully all coverages, particularly liability.

6. Look into workers compensation if you use domestic help.

7. Review building and liability limits on rental properties.

8. Make sure to include the names of any trusts on policies if any property is held in trust.

Provide Help For Businesses

New business persons can get help setting up the necessary record-keeping system for tax purposes through tax seminars and free publications from the Internal Revenue Service.

While no particular kind of records are required, businesses must prove the income, deductions, and credits on their tax returns. They should keep receipts, paid bills, and cancelled checks to support entries on the companies' books and tax returns.

The IRS offers Small Business Workshops to help

new people in business understand what the tax law requires of them in the way of tax records and payments so that they will get started properly.

There are also a number of free publications available including the Tax Guide for Small Business, Publication 334. This publication can be ordered by calling IRS office.

Sales Pass \$1 Million

Mundelein resident Maryhelen Allison has sold residential property valued in excess of \$1 million through September from the Libertyville office of Merrill Lynch.

Allison joined the firm in 1981, holds the GRI professional designation and is trained in advanced real estate courses.

She is a member of the Million Dollar Club and the Two Million Dollar Club.

Joins Real Estate Firm

LeRoy Madden has joined the sales staff of the Mundelein Rayner-First United office. A licensed broker with over 14 years' experience, Madden recently left a local office to join the First United organization.

Name Asst. Treasurer

Libertyville Federal Savings & Loan Assn. has named Jackson Nafziger assistant treasurer. Nafziger, 25, graduated in 1982 from Goshen College in Goshen, Ind. with a BA in accounting. He received his CPA in May 1983. Prior to becoming an officer at Libertyville Federal in October 1985, he was with a Chicago area auditing firm.

Why electric heat pump owners have second thoughts when the weather gets cold.

For people who bought electric heat pumps, cold weather can be bad news indeed.

Because heat pumps lose capacity as the outside temperature drops. At some point, usually right around freezing, they need help from a backup heating system. Usually, it's electric resistance heating, so you end up heating your home with one of the costliest heating systems just when the weather gets really cold.

In contrast, gas furnaces and boilers have no trouble coping efficiently with severe winters. Whatever the outside temperature, the new high efficiency models can continue to squeeze up to 95% of the available heat out of every cubic foot of gas. So you're getting maximum efficiency to minimize heating costs in bitter cold weather.

Another argument for a gas furnace or boiler is the cost of natural gas itself. Today, it's the least expensive fuel available in this area, and current forecasts indicate it will continue to maintain a strong competitive advantage for years to come.

If you're thinking about adding to or replacing your home heating system, we strongly suggest you go with natural gas.

It's the only way to be sure you won't be having second thoughts when winter comes to Illinois.

Meets Demands Of Good, Steady Progress

by STACIE ELLIS

An ambitious 1985-86 roadwork project, along with new residential and commercial developments paves the way for growth of the rural, yet progressive Village of Gurnee.

"It (the growth of Gurnee) isn't overwhelming, but we have good, steady, healthy activity," Gurnee Village Administrator Bob Trigg said.

The Village of Gurnee was incorporated in 1928 with a population of 200. From 1970 to 1980, the population exploded by 162 percent (from 2,738 to 7,179). In 1984, the population was up to 8,500 and has steadily increased to approximately 9,000.

What was once a surge of expansion has levelled into natural progress that can be adequately handled by the village.

The village has met progress face to face with the provision of an ample network of transportation. During 1985, the village undertook a \$1,250,000 roadwork project to make major street repairs, Trigg said. During this time, taxes were not increased; village and federal monies provided the funds.

Among these repairs, Delany Rd., from Rte. 41 to Grand Ave., was resurfaced, curbed and equipped with storm sewers at a total cost of \$440,000. Of this expenditure, the village provided \$112,000 and the remaining \$328,000 was provided by a Federal Aid Urban (FAU) grant.

The ongoing improvement of Cemetery Rd., between Grand Ave. and Washington St., will soon meet completion when the road shoulders are surfaced. This project has been funded by FAU, Trigg said.

Another improvement has been the construction of a \$106,000 connecting road between Hawthorne and Magnolia roads. This has been instrumental in good traffic flow, Trigg said. The village is now in the process of building streets in that area at an estimated \$277,000.

Gurnee's upgraded roadway leads its citizens and visitors to the village's prospering business areas.

The most outstanding of these is Six Flag's Great America amusement park. With its grand opening in 1976, the theme park generated approximately \$820,000 from admission and sales taxes during 1985. Great America also pays a substantial property tax to all taxing bodies in its district in Lake County and Warren Twp., Trigg said. With a 10 percent increase in attendance over 1984, approximately 2.5 million people attended Great America during its 1985 season.

Besides being a great American town of amusement and tourism, Gurnee is a family-oriented community, Gurnee Police Chief Lawrence Dluhos said. Although there are some singles living alone, that is the exception to the rule in Gurnee, he said.

Residential development is on the uprise to house Gurnee's steady influx of new families. The Heather Ridge development was established in 1976, located in the area of Rte. 120 and Hunt Club Rd.

The Pembroke development, located across from Great America on Grand Ave. is in the process of expanding and will soon extend along Dilley Rd. Four 4-unit townhouses are presently under construction, Trigg said. As it expands, a park of native oak trees will be left standing for recreation.

The Spinney Run Farms dairy is in the process of being demolished to make way for the construction of Spinney Run Corners. This housing complex will include 18 condominiums, 26 deluxe townhouses and 10,000 to 11,000 square feet of retail space along with a wooded area, Trigg said. Two 100-unit apartment buildings are also on the books to be built at Wedgewood Creek on Rte. 41.

And for those who are just passing through the village en route to Great America or other area attractions, the village is in the process of acquiring overnight accommodations. The Holiday Inn, located on Rtes. 132 and 94 is in the process of being annexed into Gurnee and has plans for expansion. Trigg said this will establish Gurnee on one of the major interchanges to the north.

Profile Community

The Gurnee Village Board is in the process of issuing \$6.5 million in industrial revenue bonds (IRB) to a developer who has plans for a 100-room motel along with 40,000 to 50,000 square feet of office and retail space on Rte. 21 across from the Great America service entrance. Another small motel is being built on Rte. 132 east of Rte. 41, Trigg said.

To accommodate its many shoppers, Gurnee is the home of the biggest grocery store in Lake County, Welton's County Market, Trigg said. Owned and operated by Gurnee Mayor Richard Welton, the store was once The Big Gurnee Discount but was transformed into a grocery store five years ago. There are three other grocery stores and two convenient food marts in Gurnee.

include The Grand Mill shopping center at the intersection of Rtes. 21 and 132 which opened six months ago; F & B Industry, an automotive hardware company which employs about 50 people, located in Gurnee's industrial park; a computer store, Inacom (a division of Lake County Office Equipment), which was added to the Mr. Muffler on Rte. 132 east of Rte. 41; a Burger King will soon be under construction on the northwest corner of the Rte. 132 and Lawson Blvd. intersection across from Great America; and the Worth Service Station, on the corner of Rte. 132 and Riverside Dr., has met progress by transforming from an Amoco filling station into a 12-hour convenient self-serve station.

Established businesses within Gurnee continue to prosper and generated approximately \$331,000 in sales tax dollars during the months of April, May and June of 1985 for the village, Trigg said. Of this amount, \$96,000 was derived from restaurants and drinking establishments; \$85,000, grocery and convenient stores; \$80,300, lumber and hardware; and \$36,000, auto and gas stations.

Along with housing and business, Gurnee's educational system faces the challenge of progress. The elementary education system has grown from a one-room schoolhouse to a three-school system. Warren Twp. High

School was built in 1917-18 with fifty-seven students in attendance; in 1985, the enrollment is 1,600. Although the school has been demolished, due to extensive fire damages in December, 1984, the Dist. 121 Board of Education is making plans for the construction of a new school, with an August, 1987, completion date.

Since its incorporation in 1928, Gurnee has grown from a farming community into a modern, active village, always responding to the challenges of progress while keeping to its logo - "The Rural Community of the Future."

Modernization For Convenience

Grand Opening flags atop Robert Worth's newly transformed Amoco convenience store, located on the corner of Grand Ave. and Riverside Dr. in Gurnee, symbolize that modernization and convenience go hand in hand at this gas station. The Worth's Service Station, a simple full-service Amoco station that has been in operation since 1946, was torn down in July to make way for the 24-hour self-serve convenience gas station. The Grand Opening was celebrated on Nov. 22 and 23.

Ringin' Up New Business

Robert Worth's daughter, Susan Tiernan, operates the cash register at the Amoco self-serve station. Worth leases the property to Amoco, and Amoco leases the new \$400,000 facility to Worth's daughter and son-in-law, Susan and Rob Tiernan. With one full-service island open 12 hours a day along with 24-hour self-serve pumps, the new station is expected to sell twice as much gas. According to statistics, nearly 80 percent of all gasoline is now sold from self-serve pumps. Rob Tiernan's explanation for this is that self-serve gas is about 18 cents cheaper per gallon than full-serve gas. But the Tiernans offer more than just gas — the store's shelves are stacked with convenience foods, milk, soda pop, diapers, candy, cigarettes and much more.

Time To Get Seasoned For Christmas Holiday

Seems impossible that Christmas is just over two weeks away. It's time to get the holiday cards sent and the gifts ready for wrapping.

How about the Christmas tree? Shopping for it better be done before selections dwindle to rejects. More folks than ever satisfy themselves with a man made Christmas tree. Sparkling with lights and decorations, the appearance is much the same and the size and fullness can be anticipated, but somehow, the smell of a fresh evergreen tree cannot quite be duplicated.

Because Christmas shopping is currently the mission, consider the possibility of making a pleasant mini trip of it, perhaps the family's first of this kind. Many hotels, in

Closest Illinois ski areas are Villa Olivia, in Bartlett, and Four Lakes, in Lisle. Just a shade farther and still in Illinois, is Holiday Park at Ingleside. Wilmot Mountain, at Wilmot, Wis., is just over the border.

From there it's only minutes further into southern Wisconsin's Walworth County, where the Americana and Majestic Ski Hills are backgrounded by the rolling contours of Kettle Moraine country.

Continuing north, the more sophisticated Alpine Valley Resort, in East Troy, Wis., offers the total package. Wisconsin areas have lodging on location, or a selection of some 50 nearby. Inns and motels cater to those wishing to overnight or just share fine food and fireplaces. Information on convenient

and around Chicago's downtown shopping areas, offer special Christmas shopping rates.

Last year, the Chicago Lake Shore Hotel, at 600 N. Lake Shore Dr., had such a successful seasonal response, they are doing it again. They offer a room rate of \$39.95, not per person. Added family benefits include free meals for children 12 and under while being served with their parents in the Horizon Cafe.

The location is convenient to shopping selections on Michigan Ave.'s Magnificent Mile, restaurants, shops, department stores and museums. Visitors may leave their vehicle in the hotel's indoor parking lot. For details, call 1-800-572-6017.

It's also time for some warmup for ski slopes and trails that may be a later destination or a longer trip. We are fortunate to have several beginner slopes nearby, quite suitable for learning, or getting in shape physically before muscles are toned.

Wisconsin accommodations and ski locations is available by a call to the Geneva Lakes Area Visitors Bureau, 1-800-345-1020.

Thereafter, selections may be contacted individually for specific details on hours, rentals, lessons fees, lodging and dining. Walworth County presents a nearby combination of nature's wonderland combined with man's best recreational offerings. Write for brochures to Walworth County Tourism, Box 1007, Elkhorn, Wis., 53121.

Seasoned skiers should check their edges, boots and clothing before the actual outdoor event. It's good precaution to give the muscles some preparatory exercise by rope skipping, jogging, knee bends or sit and push ups.

Snow making machinery produces lasting layers at 28 degrees or less. Ski areas are tooled and ready for the proper temperatures, regardless of Mother Nature's heavenly snow offering.

Bear Back In Action

Brian Baschnagel will be back in action for the Chicago Bears as he makes a player appearance at Lakehurst Mall, Thursday, Dec. 12, from 7-9 p.m.

Baschnagel, who was sidelined with an injury early in the 1985 season,

plans to sign autographs and visit with the Bear fans during his stay at the mall.

He appeared in all 16 games and two post-season affairs for the Bears in 1984, the 10th year wide receiver from Ohio State University

also finished second in special team tackles with seven.

To Participate In Needy Fund

As Christmas draws near, the spirit of giving and sharing with those less fortunate becomes even more prevalent than at other times of the year.

It is in this spirit that all Chicago-area Realty World offices are participating in the Wally Phillips Neediest Kids Christmas Fund this year.

Realty World sales associates will be distributing a self-addressed envelope and donation card in their surrounding communities, as a quick and easy means for anyone to mail a contribution.

In addition, a poster with a coin collector will be displayed in each Realty World office, including Realty World-Dale Shea in Ingleside.

The Neediest Kids Christ-

mas Fund was started by Wally Phillips of WGN Radio 10 years ago, with the purpose of assisting needy families at Christmas time. Last year, over 100,000 children benefited from contributions made by those looking for an opportunity to share at this special time.

The funds are distributed by volunteers, so all monies collected go to the children—there are no administrative costs to the Fund. In 1984, more than \$1,200,000 was collected.

"We have a great respect for Mr. Phillips' involvement in the Neediest Kids Christmas Fund," said Dale Shea of Realty World-Dale Shea, "and Realty World is proud to be involved in the collection effort this year."

Cheerleaders To Gather

Lake County cheerleaders are invited to participate in the College of Lake County (CLC) cheerleading competition Jan. 18 at the CLC Physical Education Center.

Teams will compete in five grade categories: sixth and seventh grades, eighth grade, freshman,

sophomore/junior, varsity, and varsity. First, second and third place trophies will be awarded in each category. CLC cheerleaders will judge the competition.

An entry fee of \$22 is required. Teams must register by Dec. 31. For more information, call (312) 223-6601, ext. 475.

United Way Tops Goal

"We have won, and we have truly set the pace for Lake County's tomorrow!"

1985 Campaign Chairman Larry Deans, vice president Human Resources, American Critical Care, made these comments to United Way volunteers attending the Campaign Victory Celebration Dec. 3 at the Holiday Inn, Gurnee.

"All of our hard work has paid off! We have over achieved our goal of \$3.2 million and can announce victory at \$3,294,904," Deans said.

A major contributor to the United Way Campaign is the Combined Federal Campaign (CFC). Chief of Staff Capt. Angus McDonald,

Great Lakes Naval Training Center, announced the CFC contribution at \$391,000, 37 percent over the goal!

United Way of Lake County Board President Bill Tyler, systems project director, Allstate Insurance Company, congratulated the campaign volunteers and reminded them that, "This highly successful campaign ensures our organization's capacity to respond to the growing, changing human care service needs here in Lake County."

Funds raised thru the United Way campaign are used to support nearly 90 human care service programs throughout the Lake County.

Deaths Down

The Supt. of Illinois State Police, Laimutis A. Nargelenas has announced the latest provisional figures which indicate that during the month of November, 1985, 125 persons died from injuries sustained from traffic accidents on Illinois streets and highways.

State Police, Dist. 2, which covers Lake, McHenry, DeKalb, Kane and DuPage Counties, reports 237 persons have been killed in these counties since Jan. 1 of 1985. Two hundred and seventeen persons were also killed during the same period in 1984 in these counties.

A breakdown of the counties for statistics is November, 1985, shows Lake County, four fatalities; McHenry County had no fatalities; DuPage County had six; Kane County had nine and DeKalb County, no fatalities.

As a comparison for November, 1984, Lake County had 12 fatalities; McHenry County had one; DuPage County had seven; Kane County had two; and DeKalb County had no fatalities.

There have been 1,410 persons killed in the entire state in 1985. There was 1414 persons killed in the same time period of 1984, showing a decrease of four.

Cancel Clinic

The Lake County Health Dept. Immunization Clinic scheduled for the fourth Wednesday in December at the Wauconda Twp. Community Hall has been cancelled.

SANTA CLAUS, THE MOVIE (PG-Tri-Star Pictures) Star-
ring Dudley Moore, John Lithgow, David Huddleston. ★ ★
1/2 ★

By J.T. YURKO

Santa Claus is coming to town, this time in cinematic form in a \$50 million epic titled "Santa Claus: The Movie."

The film covers the whole story: how Santa got his start, how he met the elves, where his workshop is at the North Pole and so on. Example: It's the middle of the 17th century. Mrs. Claus has a great idea — why not give toys only to good little boys and girls? Santa thinks the idea is just peachy. He turns to his chief elf and says, "Make a list of who's naughty and who's nice ... and remember I'm going to check it twice." An often tongue-in-cheek sense of humor shows up frequently in "Santa Claus: The Movie."

But this is really two movies. The second part of the film deals with Dudley Moore, who plays an enterprising young elf who applies some assembly-line tactics to Santa's workshop. The result is defective toys. The disgruntled elf then heads for New York, where he falls under the wing of an unscrupulous toy manufacturer, played with aggressive villainy by John Lithgow.

Is the \$50 million that was spent making the movie evident on the screen? For a set of kids raised on the special effects of "Star Wars," the answer is a resounding no. But the sets are lavish and colorful. Santa's workshop is everything a child ever dreamed it would be, and Santa's flying scenes are exquisite, although they seem a bit passe today. As Santa Claus, David Huddleston is everything one could ask for, and the same can be said of Judy Cronwell, who plays Mrs. Claus.

There's a minimum of gushy sentimentality and enough satire to hold the interest of adult viewers. And most children will be enchanted enough to keep trips to the candy stand to a minimum.

Obviously playing it safe, the producers have kept the film devoid of any religious overtones or implications. They are no doubt hoping this will become a perennial re-release. Even if it does, at a cost of \$50 million, it will take a number of years for all the red ink to disappear.

YES, YOU CAN!

You may have seen many new satellite earth stations, or "dishes", installed in our area recently and asked yourself, "Are those dishes legal?" or, "Can I have one of those?" Well, happily the answer to both questions is YES. In 1984, the U.S. Congress approved home earth stations designed for the reception of satellite broadcasts. Not only are dishes legal to use, they are affordable, too. You can enjoy the freedom and wide variety of satellite television today.

2 In Race Satisfied With Endorsement Vote

Both sides in Lake County's red-hot Republican primary county clerk race see good things happening despite a draw in the endorsement process.

County Board Dist. 4 Rep. Donna-Mae Litwiler of Ingleside said her "qualified" rating substantiates her credentials running for the GOP endorsement in March.

Wauconda Village Clerk Venita McConnell said her "qualified" rating is an indication that power blocs within the party aren't going to stampede the primary for her opponent.

Both Litwiler and McConnell expressed disappointment at not getting a clear-cut endorsement from the GOP leadership that reviewed qualifications of state-wide and county candidates.

Under rules of the en-

dorsement process, according to County Chairman Robert "Bob" Neal, a candidate must win a two-thirds majority of votes cast following a screening process.

Both clerk candidates failed to get the required majority in three secret ballots taken Dec. 2 at a meeting in Waukegan.

The GOP leadership will meet again Jan. 20 to vote on County Board endorsements and consider U.S. Senator candidates.

In a display of fighting spirit, McConnell undercut her opponent's rating, declaring, "I think Republican voters are going to find that my opponent is totally unqualified when they compare us despite what the vote showed."

For other offices the endorsements went as follows:

Governor-James Thompson; Lieut. Gov.-George Ryan; Atty. Gen.-James T. Ryan; Comptroller-Adeline Geo. Karis; Treas.-Michael Houston; Sec. of State-

James Edgar. Congress (10th Dist.)-John Porter; Congress (12 Dist.)-Phillip Crane; State Central Committeeman-Dave Brown (10th); Al Jourdan (12);

State Sen.-David Barkhausen (30th); Jack Schaefer (32nd); Representative-Virginia F. Frederick (59th); William Peterson (60th); Richard Klemm

(63rd); Robert Churchill (62nd). Sheriff-Robert Babcox; County Treasurer-Jack Anderson; School Supt.-Sybil Yastrow.

Sponsor Holiday Blood Drive

Anticipating the annual shortage of blood this holiday season, the American Red Cross is holding two blood drives in Lake County on Friday, Dec. 27.

One will be at Lakehurst Mall in Waukegan and the other in Mundelein at the Red Cross office. WKRS/WXLC are the official radio stations of these holiday blood drives.

The Lakehurst Mall Blood Drive will be held from 1 to 6 p.m. in the Community

Room and the Mundelein Drive will be from 2 until 7 p.m. WXLC will be broadcasting live from Lakehurst on the afternoon of the 27th.

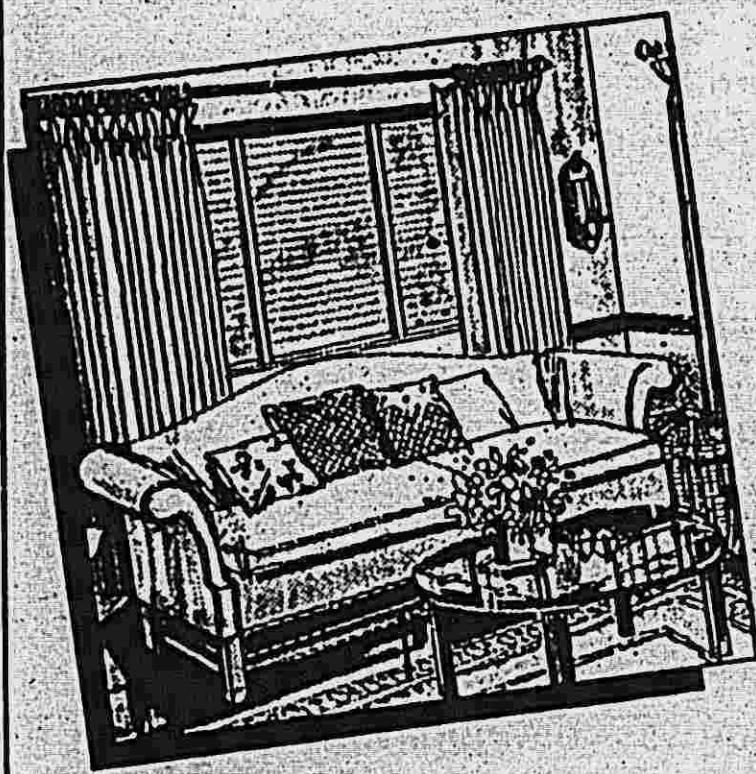

The need for blood increases over the holidays. Anyone between the ages of 17 and 66, weighing at least 110 pounds and in good health is urged to give blood as a special gift this year.

For more information and to schedule a blood donor appointment, call the Red Cross at (312) 949-1000.

The Red Cross is a United Way agency.

Postal Service Advises: Wrap Parcels Correctly

With the holiday season upon us, local postmasters have made a list of "dos" and "don'ts" for customers who want to be sure their holiday parcels get delivered.

1) Use The Right Container. Boxes should be adequate in size for items being mailed with enough space for cushioning material. They should be strong enough to hold the weight of their contents. If the box has adequate space for an address (cross out confusing information), it is not necessary to wrap it in paper. If you use paper, however, it should be the kind used in grocery bags. Length should not exceed 10 times the circumference.

2) Use Cushioning Material. Cushioning absorbs

and distributes shock and vibration. Good cushioning materials are foamed plastics, corrugated cardboard and loose fill material such as polystyrene, popcorn or shredded newspaper. Loose fill material should completely cover the items being mailed.

3) Seal Parcels Well. Use tape, not string or rope, to close packages. Cellophane and masking tape should NOT be used. Pressure sensitive, filament-reinforced tape is recommended and should be wrapped twice around the parcel.

4) Print Or Type Address On Package. Your package will never reach its destination if it is not addressed correctly. Print or type the address clearly on one side of the parcel only. It

is also a good idea to put the name and address inside the package in case the address label comes off.

5) Don't Mail Anything Too Large. Packages must not exceed 70 pounds. They must also be at least three-and-a-half inches wide and five inches long, and total length and circumference cannot exceed 108 inches.

6) Don't Overinsure. If your parcel is valuable, you might want to insure it, but only for its actual value. The Postal Service pays claims based on the actual value of lost or damaged items and not a higher insured amount.

If you follow these six suggestions, it'll help postal workers get your package where it's going on time, in good shape.

Last Chance To Register

The Selective Service System reaches an important milestone in the registration of young men on Jan. 1, 1986.

Beginning on this date, men who were required in 1980 to register with Selective Service will be turning 26. Selective Service does not have the authority to accept registrations of men after they turn 26. Men who failed to register will have permanently forfeited their right to certain Federal student aid and job training benefits as well as Federal employment.

Additionally, registration with Selective Service is a requirement in some states for various employment opportunities, such as law enforcement agencies and permission to practice law.

Men born in 1960 who have registered will reach age 26 in 1986 and, under present

law, will no longer be eligible for selection for induction. Over 15 million men, age 18 through 25, have registered with Selective Service since President Carter initiated registration in 1980.

Many of the men who are nonregistrants may be unaware of the requirement or do not understand the importance of the obligation to register. Some have served in the military but failed to register either before entering the Armed Forces or after leaving active duty.

Others may have been incarcerated at the time of their 18th birthday and not realized they were required to register if released from custody prior to age 26.

Men age 18 to 25 who have not yet registered should register promptly to avoid prosecution and/or loss of benefits. Registration takes

only five minutes at any post office.

Failure to register is a felony, punishable by a fine of up to \$250,000 and/or up to five years imprisonment.

Schaffer Gets Rating

The Taxpayers' Federation of Illinois (TFI) has given Sen. Jack Schaffer (R-McHenry County) a "superior" rating for his 1985 voting record on bills dealing with tax and pension issues.

Schaffer was ranked sixth in the Senate, according to TFI President Douglas L. Whitley.

Teachers Participate

Three science teachers from the Lakeland readership area participated in a workshop in biology this fall at Abbott Laboratories.

The workshop was a cooperative effort involving Abbott and the company's chapter of Sigma Xi (a scientific research society), the North Suburban (high school) Science Supervisors Assn. and Northeastern Illinois University.

Teachers were able to earn one hour of college

credit for the course from Northeastern Illinois University.

The six-session program titled "Current Research in Science" was held at the company's corporation headquarters at Abbott Park. Seven Abbott scientists lectured on the latest developments in their fields of research. Workshop topics included immunology, virology and genetic engineering.

Speakers discussed the

virology of the HTLV-III virus which causes AIDS and the development of new products such as Abbott's AIDS diagnostic kit for screening blood for evidence of the virus.

The three teachers who attended the workshop and the schools represented are as follows: Gurnee (Warren Township High School) Carol Cummings and Natalie Tiernan, Mundelein (Mundelein High School) Neil McLoughlin.

Moderate County Hiring

A seasonal lull in the job picture is foreseen by Waukegan/Lake County area employers for the first quarter of 1986, according to a survey released by Manpower, Inc., the world's largest temporary help service.

The Manpower Employment Outlook Survey reports that 10 percent of local employers surveyed plan to increase staff during January, February and March, 17 percent foresee staff cuts and 56 percent anticipate no change in present staffing levels. The remaining 7 percent are uncertain of first quarter hiring plans.

Chuck Bartels, owner of Manpower's Waukegan/Lake County operation, pointed out that the first quarter is traditionally the slowest for new hiring activity as the holiday season jobs disappear.

Waukegan/Lake County area, job opportunities are predicted by public ad-

ministrators and durable and non-durable goods manufacturers.

Maintaining Tradition Is Possible During Holidays

QUESTION: Can I maintain taste and tradition in my holiday meal menu while providing high quality nutritional intake?

ANSWER: My general rule for changing recipes and adjusting a menu is to evaluate your usual procedures for elimination of negative factors with the addition of nutritional plus factors while maintaining appearance and taste.

You want to eliminate excess sugar, salt, fat, additives, and preservatives. You may add a vegetable source protein, such as dry powdered milk, nuts, seeds, sprouts, or legumes, a fiber, such as a whole grain, fruit or vegetables.

To maintain taste you may substitute an easily utilized sugar (such as honey, molasses, or dried fruit), herb seasonings (such as a prepared mixture or individual items like basil, thyme, rosemary, dill and parsley), or increased amounts of garlic or onion.

Turkey is considered a low-fat meat, but if cooked with the skin on, the fat found directly under the skin does cook into the meat.

Read the labels carefully on turkey's claiming to be extra juicy and tender. Many packaged birds have additives that are not desirable or necessary. You may baste your turkey with real butter several times while roasting for added flavor.

Use whole grain (wheat or rye) bread for your dressing and season as desired. The season-makes the dressing, not the bread. Using whole grain bread in the stuffing will help in decreasing the total amount of empty calorie white flour products for the holiday feast. Other high starch white flour items that could be changed to whole grain are the dinner rolls and pie crusts.

You may use fresh apples and a small amount of raw honey to sweeten the cranberries. In order to use less honey and decrease the honey taste you need to add this sweetener to cooled items only. Substituting pineapple juice and cubed or crushed pineapple for brown sugar in the sweet potato casserole will provide the same texture product with a nutritional sweetening agent.

Pat D's Nutrition Today

Pat DeAngelis is a nutrition consultant to American International Hospital, Zion. Readers with questions about the food and liquid they consume are invited to address questions to Pat D's Nutrition Today, Lakeland Newspapers, P.O. Box 268, Grayslake, Ill. 60030.

SWEET PATATO CASSEROLE: 6 medium sweet potatoes (baked), 2 T. butter, 2 t. ground cashews or almonds, 1 c. cubed or crushed pineapple, ½ c. pineapple juice.

Skin cooked potatoes and place in large mixing bowl. Prepare mashed potatoes using pineapple juice and butter (melt butter before adding if potatoes are cold). Fold in pineapple fruit and place mashed potato in a lightly buttered baking dish. Sprinkle ground nuts on top. Bake uncovered at 300 degrees about 20 minutes or until crusty on top.

Families May Host Navy Personnel

Families who would like to invite Naval personnel to their homes for Christmas dinner may do so by making arrangements through the Great Lakes Naval Training Center Public Affairs Office.

Bill Dermody, assistant public affairs officer at Great Lakes, says that the Christmas dinner program has become an annual event at the training center.

At Thanksgiving, families from as far north as Milwaukee and as far south as the southern suburbs of

Chicago participated in a similar program, enabling more than a thousand Navy men to enjoy the holiday in a home environment.

Families who would like to open their homes to a couple of sailors at Christmas should contact the Training Center Public Affairs Office week days at (312) 688-2201/2430 between the hours of 7:30 a.m. and 4:30 p.m.

Participating families must then pick up their naval guests at the Recruit Training Command on

Buckley Rd., Rte. 137, between the hours of 10 a.m. and noon Christmas morning. The sailors must then be returned to the base prior to 8 p.m.

Interested families may register for the program until noon on Dec. 23. Sailors will not be released to hosts who have not applied in advance.

A. Gill Becomes Sergeant-At-Arms

Arthur A. Gill, supervisor of Rangers for the Lake County Forest Preserve Dist., has been elected Sergeant-At-Arms for the Lake County Chiefs of Police Assn. for the ensuing year.

Gill has served the District and the Chiefs Assn. for the past eight years. He is also a member of the International

PM & L Plays With Magic

This year, the P.M. & L. Community Theatre in Antioch will present "Hubbard For The Holidays." This is a magic show extraordinaire for children of all ages. It will replace the scheduled "Emperor's New Clothes" which had to be cancelled for reasons beyond the control of the group.

"Hubbard For The Holidays" stars Tom Hubbard, the well-known and liked area magician. There will be other surprises at the three performances as well as Tom's magic show. Free refreshments will be served and each guest will receive a treat upon leaving the show.

Show dates and times are: Saturday, Dec. 28, at 11:30 a.m. and 2:30 p.m. and Sunday, Dec. 29, at 2:30 p.m.

Reservations for groups of 20 or more will be taken at (312) 395-3055. Reservations for individuals and small family groups will not be taken. Admission will be \$2 per person.

Seek Volunteers

The Lake County Dept. of Court Services has volunteer positions available for citizens who are seeking a challenging and educational experience.

The Volunteer Program has been in existence since 1971, to assist in the supervision of both juvenile and adult offenders who have been placed on probation.

Citizen participation in criminal justice is a fast

growing concept as people are increasingly aware that community.

Individuals who are on probation are often without a positive role model and support system in the community. A concerned citizen could provide this needed dimension.

For further information, contact Mary Marsolek, community resource liaison at (312) 689-6664.

Police Find Fourth Youth

The fourth missing youth sought by the Lake County Sheriff's Police I-SEARCH Unit is in the custody of Winnebago County authorities, Sheriff Robert H. Babcox has announced.

James W. Melock, age 15, was highlighted through the news media in October, along with three other missing youths, Babcox said. All have now been located, he added.

Melock was transferred to Winnebago County by Lake County Juvenile Probation authorities Dec. 1, Babcox said.

The youth was being sought by law enforcement agencies "after running into problems with the law," the sheriff stated.

Since February, 111 youths have been located by our unit, Babcox concluded.

Hospitalization Reduced For Surgery Patients

Just a few years ago, cataract surgery, hernia repair, and even insertion of cardiac pacemakers required patients to be hospitalized for several days to several weeks. These procedures are all now increasingly being performed as outpatient surgeries.

Because of the public's awe of heart surgeries, pacemaker insertion as an outpatient procedure has evolved more slowly than have other surgeries, says Tien C. Cheng, M.D., cardiologist and fellow of the Council of Clinical Cardiology of the American Heart Assn. He implants cardiac pacemakers at Victory Memorial Hospital in Waukegan.

In the wake of the government mandate for cataract surgery to be done as an outpatient procedure for appropriate Medicare patients, Dr. Cheng says he believes pacemaker insertion in the future also will be required to be an outpatient procedure.

"With proper selection of patients, it is safe," and patients do well after

release," Dr. Cheng affirms. (He still hospitalizes patients who are ill or at risk.)

The first pacemakers were as large as washing machines and were plugged into a wall outlet, he points out. Now they are barely larger than a silver dollar and weigh less than two ounces. They have been ranked as one of the 10 outstanding engineering achievements of the last 50 years—along with the transistor and the Apollo 2 landing on the moon.

Not only have the size, shape and weight of pacemakers changed, newly designed pacemakers have been introduced in the last five years, Dr. Cheng notes. Early pacemakers had only one electrical lead which was inserted into the right ventricle of the heart. But a patient's heartbeat might be interrupted because the normal contribution of the atrium to the pump function of the heart is missing. In this case, an additional 25 percent of the heart's blood capacity would be lacking.

Therefore, new pacemakers include a

second electrical lead for the right atrium. Yet another generation of pacemakers are now available, he reports. These are designed to detect life-threatening arrhythmia. They automatically shock the heart back to normal beating. In October, the Food and Drug Administration announced its approval of these devices.

Pacemakers have been implanted in an estimated 1 million persons in the United States.

Candidates for artificial pacemakers usually have abnormal or irregular heartbeats which is causing weakness or fainting. If the heart's natural pacemaker is the cause of the problem, an artificial pacemaker may be implanted to restore a steady, normal rate.

In an operation, which usually lasts less than an hour—with the use of only local anesthetic—the artificial pacemaker's electrical leads are threaded through the blood vessels into the heart. A Battery pack is then implanted under the skin below the collar bone.

CLC Provost Testifies

The new G.I. Bill gives a clear recognition that college training is a cornerstone of national security, according to College of Lake County Provost for Contractual Programs and Services, Kathleen Arns.

Arns testified at an oversight hearing on the implementation of the new G.I. Bill before the House Subcommittee on Education, Training and Employment.

Among other changes, the bill provides college benefits for individuals who serve in the National Guard and the Reserves.

"We are impressed by the potential for raising the

overall quality of military personnel and for softening the competition among the military, colleges and industry for high school graduates," Arns told the committee.

"There will be a marked decline in the flow of high school graduates in the decade just ahead and colleges are facing strong competition from employers and the Armed Forces for available young people. The new G.I. Bill offers the opportunity to soften that competition by encouraging high school graduates to mix roles," she added.

Arns criticized the lack of available information about

the bill and urged the committee not to implement excessive regulations.

"The benefits surely would reach more veterans if there were less bureaucracy, and they would be more happily served by the colleges if there were less paperwork and fewer audit abuses. (I) urge that the Veteran's Administration work with the American Assn. of Community and Junior Colleges (AACJC) and the Assn. of Community College Trustees (ACCT) to conduct workshops across the country to fully brief veterans program specialists from the colleges on the new G.I. Bill," she said.

Victory Outreach Center Offers Medicare Program

Victory Health Outreach Center, in cooperation with the Lake County Council for Seniors, will provide a new service for the senior citizen.

A Medicare "B" Alert volunteer will be available free of charge to help seniors with their Medicare reimbursement problems.

Any senior that brings a

copy of the physician's statement and Medicare's Explanation of Benefits will be shown how and what to do if they disagree with the decision on the amount Medicare will pay on a claim for physician services.

A Medicare "B" Alert volunteer will be available the second and fourth Friday of each month from 1-3 p.m.

Victory Health Outreach Center is located at 121 E. Grand Ave., Lake Villa. Call (312) 356-5900 for more information or for an appointment.

There are 21 Medicare "B" Alert volunteers offering this free service in 20 senior organization throughout Lake County.

Babcox Reviews Feats, States Reelection Goals

With Lake County Sheriff Robert H. "Mickey" Babcox's announcement to seek reelection, he has promised that his team will continue to produce major achievements.

Some of those major achievements include morale of the department, close working relationship with county administration, priority calling for service calls to the public, computerized calls for better public service and records transferred onto microfilm.

According to Babcox, improved service to both incorporated and unincorporated areas has been improved during his term as sheriff through the following: expanded 5 p.m. to midnight office hours; a Lake Michigan Water Patrol; permanent headquarters for the Marine Unit for the Chain of Lakes Water Patrol; a mobile Command Post vehicle for disaster assistance; a snowmobile unit; an agreement to provide police protection to smaller villages and Babcox's personal interest in public relations with state, local and federal government.

A homicide task force has been formed by Babcox to support small police departments. Aerial surveillance to spot marijuana growth is being conducted and a canine unit has been added to the force, according to the sheriff. These and other important changes have resulted in a tremendous professional working relationship between the

sheriff's department and the state police, he said.

Babcox believes that to reduce crime, the causes must be eliminated. A major accomplishment of his was establishing Lake County Crime Stoppers. The Lake County Sheriff's Dept. was the first law enforcement agency in the United States to sponsor and enforce a Boaters' Safety Ordinance to stop drunk driving on the waterways. Active participation in support of the Neighborhood Watch Program is a big deterrent to crime in Lake County, Babcox said.

An alcohol safety program is in operation to deal with the problem of teenage drinking causing senseless deaths on county highways, he said.

During his term as sheriff, Babcox has implemented and expanded the following programs: the Child Fingerprint Program which has covered over 40,000 children; the I-Search Program which has resulted in the recovery of missing and kidnapped children; school programs to acquaint both high school and grade school students of the effects of drugs and alcohol abuse; participation in the Domestic Violence Task Force and a lead role in the Child Sexual Abuse Task Force.

Sheriff Babcox is presently working with the County Board on plans for a new jail, an obligation resulting from recent federal civil rights laws.

The sheriff has stated some of his goals and objectives for the next four years:

1. Further expansion of enforcement efforts against narcotics peddlers.
2. The development of contractual agreements with villages for efficient, economical law enforcement.

3. Formation of a Violent Crimes Unit to be available to smaller police departments to assist in the area of major violent crimes.

4. Continued efforts to make highways safer through more stringent law enforcement and community involvement.

5. Expansion of the role of

sheriff in corrections and jail management.

6. Expand computerization to civil process and booking functions.

7. Establishment of a specialized child protection interview team available to work with local police departments.

8. To make Lake County a safer place for the retired and elderly.

9. Establishment of a Victim Assistance Unit to serve citizens who have been victimized by a crime.

10. Establishment of a work farm for convicted criminals.

Program Now In Full Swing

Mug Mania, a Junior Achievement company sponsored by Travenol Laboratories, is in full swing and well on its way to a successful semester. The company packages and sells deluxe mixed nuts in Ball jar mugs.

During the next several months, high school students from Grant and Grayslake High Schools will be gaining valuable business experiences by operating their own mini company. The company sells stock, elects officers, meets payroll and will liquidate at the end of the semester.

Elected officers of Mug Mania are: President-Kevin Kornac, of Round Lake; Vice President of Personnel-Mollie Morman, of Lake Villa; Vice President of Marketing-Sheryl Branden, of Grayslake; Vice President of Production-Paul Slak, of Round Lake; and Vice President of Finance-Louis Andresen of Fox Lake.

The goal of Junior Achievement is to provide

students with first-hand experience with the free enterprise system and an understanding of the relationship between profits and the ability of a business to survive and remain financially

healthy.

The company meets every week on Tuesday evenings from 6:30 to 9 p.m. at Travenol Laboratories, Rte. 120 and Wilson Rd., Ingleside. Interested studen-

ts may join the program at any time.

For more information about Travenol's role in Junior Achievement, contact Valerie L' Hommedieu at (312) 948-4559.

Health Board Elects Officers

New officers were elected for the Lake County Board of Health. Alice O'Shea, R.N. of Waukegan is the new president. Barton K. Adams, M.D., of Lake Bluff was elected vice president and the new secretary is Sheldon O. Burman, M.D., Highland Park.

O'Shea has been on the board of health, serving in other offices, since 1981. She is coordinator of the Community Care Program at the Veterans Administration Medical Center in North Chicago.

Adams has a private prac-

tice in psychiatry and is on the staff of both Highland Park Hospital and St. Therese Medical Center, Waukegan.

Burman is a consultant at American International Hospital in Zion, Highland Park Hospital and St. Therese.

Six Join

During the month of November six young people from the Lakeland readership area joined the Illinois Army National Guard.

For their participation in the Guard after one year, they all will be awarded a free, full tuition, four year scholarship to any of the state supported schools that they choose.

Those six young people include: Aaron Gladden (Great Lakes), Scott Spaulding (Mundelein), Christopher Fritzler (Lindenhurst), William Burgess (Mundelein), Solomon Viramontes (Mundelein) and John Blakney (Lake Villa).

PROPOSED FLOOD ELEVATION DETERMINATIONS

AGENCY: Federal Emergency Management Agency.
ACTION: Proposed rule.

SUMMARY:

Technical information or comments are solicited on the proposed modified base (100-year) flood elevations shown on your community's preliminary Revised Flood Insurance Rate Map (FIRM). These base (100-year) flood elevations are the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program. The proposed base flood elevations modify the base flood elevations shown on your community's presently effective FIRM.

DATES:

The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the community.

ADDRESSES:

Preliminary Revised FIRMs showing the proposed modified base flood elevations and their delineation are available for review at the Village Hall, 301 South Route 59, Fox Lake, Illinois.

Send comments to Honorable William C. Dam, Mayor, Village of Fox Lake, Village Hall, 301 South Route 59, Fox Lake, Illinois 60020.

SUPPLEMENTARY INFORMATION:

The Federal Emergency Management Agency gives notice of the proposed determinations of modified base (100-year) flood elevations, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR 67.4 (a).

NOTICE

Notice is hereby given to the legal voters, residents of the Town of Warren, in the County of Lake, State of Illinois, that the Regular Town Meeting on December 24, 1985, has been cancelled. The next regular meeting of the Town Board will be at 8:00 P.M., Tuesday, January 14, 1986, at 17801 W. Washington Street, Gurnee, Illinois.

Joseph J. Dada
Town Clerk of Warren

Dec. 12, 1985

These elevations, together with the floodplain management measures required by Section 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

Pursuant to the provisions of 5 USC 605 (b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that the proposed flood elevation determinations if promulgated, will not have a significant economic impact on a substantial number of small entities. A flood elevation determination under section 1363 forms the basis for new local ordinances, which, if adopted by a local community, will govern future construction within the floodplain area. The elevation determinations, however, impose no restriction unless and until the local community voluntarily adopts floodplain ordinances in accord with these elevations. Even if ordinances are adopted in compliance with Federal standards, the elevations prescribe how high to build in the floodplain and do not proscribe development. Thus, this action only forms the basis for future local actions. It imposes no new requirement; of itself it has no economic impact.

Proposed base flood elevations along flood sources studied in detail are shown on the Preliminary Revised FIRM. Lessees and owners of real property in the Village of Fox Lake; Lake and McHenry Counties, Illinois, are encouraged to review these maps and related materials at the address cited above. The flood sources studied in detail are:

Source of Flooding	Location	Existing	Modified
Pistakee Lake	Shoreline	*742	*741
Nippersink Creek	At mouth	*742	*741
	About 0.75 mile upstream of mouth at Pistakee Lake	*742	*743

**ORDINANCE NO. 85-0-26
AN ORDINANCE GRANTING A VARIATION UNDER
THE GRAYSLAKE ZONING ORDINANCE FOR PREMISES
AT 380 ALLISON COURT, GRAYSLAKE, ILLINOIS**

WHEREAS, a petition was heretofore submitted by JACK WRIGHT, the Owner of the property, for a variation under the Grayslake Zoning Ordinance, being Ordinance No. 235, as amended (comprehensively by Ordinance No. 77-0-26), for the premises described as follows, to-wit:

Lot 1 in Pollito's Subdivision being a Subdivision of part of the Northwest Quarter of the Northeast Quarter of Section 34, Township 45 North, Range 10, East of the 3rd P.M., according to the plat thereof recorded June 26, 1979 as Document 2002998, in Lake County, Illinois.

said premises being also known 380 Allison Court, Grayslake, Illinois; and

WHEREAS, this matter was heretofore referred to the Zoning Board of Appeals of the Village of Grayslake, Lake County, Illinois, for a public hearing upon said petition, and said Zoning Board of Appeals caused a notice to be prepared containing a general statement of the purpose of the proposed variation and an identification of the premises for which the variation was proposed and stating the time and place of a public hearing for the consideration thereof; and

WHEREAS, said notice of said public hearing was duly published as required by the relevant provisions of said Zoning Ordinance, at least 15 days but not more than 30 days in advance in a newspaper of general circulation published in said Village; and

WHEREAS, said Zoning Board of Appeals held a public hearing in said Village as specified in said notice upon said petition for a variation and the witnesses were duly sworn upon oath and examined at said hearing, and pursuant to said hearing the Zoning Board of Appeals has made its report and recommendation thereon, to the President and Board of Trustees of said Village; and

WHEREAS, the Zoning Board of Appeals recommended that a variation be granted as hereinafter detailed; and

WHEREAS, the President and Board of Trustees of said Village, after due investigation and consideration of said report, which report is on file in the Office of the Village Clerk of this Village, and by reference is hereby made a part hereof, have determined that the nature and extent of the public interest to be subserved require the granting of the variation hereinafter detailed.

NOW, THEREFORE, BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF GRAYSLAKE, LAKE COUNTY, ILLINOIS:

SECTION 1. FINDING OF FACTS AND MEETING OF CONDITIONS. That it is hereby found as facts that the variation will only modify the application of the Zoning Ordinance to achieve a parity among properties similarly located and classified and is necessary to overcome exceptional physical conditions which pose a practical difficulty and an unnecessary hardship in such a way as to prevent the owner from using his property as intended by the Zoning Ordinance; and that all of the following conditions have been met:

A. The variation does not permit a use otherwise excluded from the particular zone in which said property is located.

ORDINANCE NO. 85-0-23

AN ORDINANCE GRANTING A VARIATION UNDER THE GRAYSLAKE ZONING ORDINANCE FOR PREMISES AT 545 LINCOLN AVENUE, GRAYSLAKE, ILLINOIS

WHEREAS, a petition was heretofore submitted by PHIL WELLS, the Owner of the property, for a variation under the Grayslake Zoning Ordinance, being Ordinance No. 235, as amended (comprehensively by Ordinance No. 77-0-26), for the premises described as follows, to-wit:

Lot 4 in Philmar, Unit No. 2, being a resubdivision of Lots 13 through 24 inclusive in Block 5; also the West half of the vacated alley in said Block 5 and also that part of Lot A lying West of the centerline of the vacated alley in said Block 5 all in Fred D. Battershall's Subdivision of part of Section 35, Township 45 North, Range 10, East of the 3rd P.M., according to the plat thereof recorded April 4, 1906, as Document No. 105879 in Book "C" of Plats, page 46, in Lake County, Illinois.

said premises being also known as 545 Lincoln Avenue, Grayslake, Illinois; and

WHEREAS, this matter was heretofore referred to the Zoning Board of Appeals of the Village of Grayslake, Lake County, Illinois, for a public hearing upon said petition, and said Zoning Board of Appeals caused a notice to be prepared containing a general statement of the purpose of the proposed variation and an identification of the premises for which the variation was proposed and stating the time and place of a public hearing for the consideration thereof; and

WHEREAS, said notice of said public hearing was duly published as required by the relevant provisions of said Zoning Ordinance, at least 15 days but not more than 30 days in advance in a newspaper of general circulation published in said Village; and

WHEREAS, said Zoning Board of Appeals held a public hearing in said Village as specified in said notice upon said petition for variation and the witness were duly sworn upon oath and examined at said hearing, and pursuant to said hearing the Zoning Board of Appeals has made its report and recommendation thereon, to the President and Board of Trustees of said Village; and

WHEREAS, the Zoning Board of Appeals recommended that a variation be granted as hereinafter detailed; and

WHEREAS, the President and Board of Trustees of said Village, after due investigation and consideration of said report, which report is on file in the Office of the Village Clerk of this Village, and by reference is hereby made a part hereof, have determined that the nature and extent of the public interest to be subserved require the granting of the variation hereinafter detailed.

NOW, THEREFORE, BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF GRAYSLAKE, LAKE COUNTY, ILLINOIS:

SECTION 1. FINDING OF FACTS AND MEETING OF CONDITION. That it is hereby found as facts that the variation will only modify the application of the Zoning Ordinance to achieve a parity among properties similarly located and classified and is necessary to overcome exceptional physical conditions which pose a practical difficulty and an unnecessary hardship in such a way as to prevent the owner from using his property as intended by the Zoning Ordinance; and that all of the following conditions have been met:

A. The variation does not permit a use otherwise excluded from the particular zone in which said property is located.

B. The variation granted is the minimum adjustment necessary for the reasonable use of the land.

C. The granting of variation is in harmony with the general purposes and intent of the Zoning Ordinance, and will not be injurious to the neighborhood, detrimental to the public welfare, or in conflict with the Comprehensive Plan of the Village.

SECTION 2. VARIATION GRANTED: That a variation is hereby granted to authorize a two (2) foot reduction of the twenty (20) foot side yard requirement of Section 203, Table 2 Lot Area, Yard and Bulk Regulations.

SECTION 3. NUMBER OF ORDINANCE. That this ordinance shall be in full force and effect from and after its passage, approval, and publication as required by law.

AN ORDINANCE REZONING LAND AND MAKING CERTAIN VARIATIONS UNDER THE GRAYSLAKE ZONING ORDINANCE FOR PREMISES DESCRIBED AS THE FRONTAGE NORTH SIDE OF STATE ROUTE 120 BETWEEN SEARS BOULEVARD AND STATE ROUTE 45, GRAYSLAKE, ILLINOIS**

WHEREAS, a petition was heretofore submitted by Bertha Lipponeur, as Trustee of ESPER A. PETERSEN TRUST NO. 1, the Owner of the property, for rezoning the land and making certain variations under the Grayslake Zoning Ordinance, being Ordinance No. 235, as amended (comprehensively by Ordinance No. 77-0-26), for the premises described on Exhibit "A", attached hereto and made a part hereof.

Said premises are described as being the frontage north side of State Route 120 between Sears Boulevard and State Route 45, Grayslake, Illinois, and

WHEREAS, this matter was heretofore referred to the Plan Commission and Zoning Board of Appeals of the Village of Grayslake, Lake County, Illinois, for a public hearing upon said petition, and said Plan Commission and Zoning Board of Appeals caused a notice to be prepared containing a general statement of the purpose of the proposed rezoning and variations and an identification of the premises for which the rezoning and variations were proposed and stating the time and place of a public hearing for the consideration thereof; and

WHEREAS, said notice of said public hearing was duly published as required by the relevant provisions of said Zoning Ordinance, at least 15 days but not more than 30 days in advance in a newspaper of general circulation published in said Village; and

WHEREAS, said Plan Commission and Zoning Board of Appeals held a public hearing in said Village as specified in said notice upon said petition for rezoning and variations, the witnesses were duly sworn upon oath and examined at said hearing, and pursuant to said hearing the Plan Commission and Zoning Board of Appeals have made its report and recommendation thereon, to the President and Board of Trustees of said Village; and

WHEREAS, the Plan Commission and Zoning Board of Appeals recommended that said land be rezoned and said variations be granted as hereinafter detailed; and

WHEREAS, the President and Board of Trustees of said Village, after due investigation and consideration of said report, which report is on file in the Office of the Village Clerk of this Village, and by reference is hereby made a part hereof, have determined that the nature and extent of the public interest to be subserved require the granting of the rezoning and variations hereinafter detailed.

NOW, THEREFORE, BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF GRAYSLAKE, LAKE COUNTY, ILLINOIS:

SECTION 1. FINDING OF FACTS AND MEETING OF CONDITIONS. That it is hereby found as facts that the variations will only modify the application of the Zoning Ordinance to achieve a parity among properties similarly located and classified and are necessary to overcome exceptional physical conditions which pose a practical difficulty and an unnecessary hardship in such a way as to prevent the owner from using the property as intended by the Zoning Ordinance; and that all of the following conditions have been met:

A. The variations do not permit a use otherwise excluded from the particular zone in which said property is rezoned to, namely, the General Business classification.

B. The following special circumstance or condition, namely, the incompatibility of the subject premises with the surrounding and adjoining property, justifies the rezoning of the subject premises and the variations thereon.

C. The special circumstance or condition has not resulted from any act of the applicant subsequent to the adoption of the Zoning Ordinance, whether or not in violation of the provisions thereof.

D. The aforesaid circumstance or condition is such that the strict application of the provisions of the Zoning Ordinance would deprive the applicant of reasonable use of the land, and same does not constitute a mere loss in value to justify the rezoning and variations but would result in a deprivation of a beneficial use of the land.

E. The variations granted are the minimum adjustments necessary for the reasonable use of the land.

F. The granting of the variations is in harmony with the general purposes and intent of the Zoning Ordinance, and will not be injurious to the neighborhood, detrimental to the public welfare, or in conflict with the Comprehensive Plan of the Village.

SECTION 2. REZONING AND VARIATION GRANTED. That the subject premises are rezoned from Shopping Center Business to the General Business classification. Variations are hereby granted as follows:

A. An increase of the structural coverage percentage from twenty-five (25) percent to thirty (30) percent for an increase of five (5) percent.

B. A reduction of the setbacks in a business zone abutting a residential district from eighty (80) feet to thirty (30) feet for a reduction of fifty (50) feet.

SECTION 3. NUMBER OF ORDINANCE. That this ordinance shall be in full force and effect from and after its passage, approval, and publication as required by law.

Reader Provides Slant On War's Inevitability

by JOHN STEINKE

Recently, I authored a column on how war has been the major preoccupation of the Twentieth Century. This prompted Lynette Kleiner to write me an interesting letter on a Biblical interpretation of war throughout history. Kleiner is a Jehovah's Witness, and a Lake Villa resident. Here are some excerpts from Kleiner's correspondence:

"I read your column concerning the U.S. preoccupation with war. I sensed you felt a real concern even a hatred for war. Have you ever wondered why we have such wars? ... In the Hebrew scriptures, God used His people, the descendants of Abraham, to fulfill a promise that was made to Abraham. The promise was that all nations of the earth would be blessed because of Abraham's faithfulness to God. God being Jehovah by name (Psalm 83:18 King James) always keeps His promises.

All people, who follow Jehovah's way, no matter what nationality or color are His 'chosen nations.' If those out of each nation, who are trying to follow God's way, join with their country in war against another (German against England); they would be working in opposition to God. You may be killing others, who also may be trying to do God's will in their own country. Also the Bible tells us not to commit murder, which is what one usually ends up doing when fighting a war.

In Matt. 24, Jesus tells us of wars between nations occurring at a time when he would taking his throne in heaven... In Revelation, Chapter 12, John tells of a vision he had that greatly concerns us today. He tells us that when Jesus took his throne, the first thing he did was to kick Satan and his demons out of heaven restricting them to the earth. It says, 'Woe for the earth for Satan has come down knowing he has a short period of time.'

"There is a prophesy in Daniel that enables us to calculate the time of Jesus' enthronement in the heavens. The year 1914 has been hailed by Jehovah's Witnesses since the late 1800's as the year Jesus took his throne. What happened in 1914? It was the beginning of World War I, fulfilling Revelation 12: 'woe for the earth.' We have had wars beyond belief since Satan has been in control of the earth. But his time is short and even within our lifetime, Jesus, our King, will bring an end to all wars and bring judgment on all making war..."

Comment: Lynette, how do you respond to people, who subscribe to the philosophy: "Kill a Commie for Christ?"

Steinke On Politics

"Getting back to war, one can see that much war was urged by God's people, but only with God's direction and on the unrighteous persons upon whom Jehovah was bringing judgment. Today, when war is waged, there is no direction from God. This can be said because God no longer has selected any one nation to direct as "His people."

Sixth Annual Christmas Entertains 200 Seniors

The sixth annual Christmas Party for senior citizens was given on Dec. 5 by the volunteers of the Chain of Lake Senior Services, Antioch office.

Volunteers, mostly seniors themselves, shared a Christmas with more than 200 seniors at the Antioch Moose Hall. Invitations were extended to the needy and seniors.

Telecare—Meals with Wheels, friendly visiting and transportation programs. Gifts, donated by the members of the community, were given to the seniors and volunteers cooked up a beautiful holiday meal.

The Madrigal Singers from the Antioch High School performed Christmas carols in the holiday

decorated hall. The Pep-tones entertained. Antioch Twp. supervisor Jim Fields supplied the turkeys and Michael's Restaurant roasted the turkeys, hams and trimmings.

Randall Weisemann, director of the Chain of Lakes services, attended. Birnida Johnson, manager of the Antioch offices, looking around at all the seniors called the party another success.

On behalf of the seniors, Johnson thanks the following volunteers, (hoping she didn't leave anyone out):

Carousel, Kings, Squires, Las Vegas Restaurant, Hoffman's, Blinker's Clown, Elan Beauty Shop, Hair Connection, Antioch. Hearing Aid, Meta's Candies,

Polson's Health Foods, Lakeside Restaurant, Ben Franklin, Hair Studio, Randy Miller, Marlene Miller, Antioch Bowl, Limerick Lounge, Rusty Miller, Ruth Sheldon, J&L Gas "83"

Glass Impressions, McDonalds, American Family Insurance—Brad Ipsen, Jackie's Hallmark, True Value, Blanchette T.V., Kayden Trophy, Ace Hardware, E. Carlsen, R. Jedele, R. Eckert, 885 Civic Club, Judy Lee, First National Bank of Antioch, State Bank of Antioch, Strang's Funeral Home, Gerkin Egg Farm, Jim Fields, Mayor Toft, Leider's Florist, Schwinds Florist, Koeunes Florist, Floral Acres and Near Wholesale Electronics.

Gift Giving

Birnida Johnson, manager of the Chain of Lakes Senior Services, Antioch office, reads the numbers for more than 200 gifts donated for area seniors. The Dec. 5 Christmas party was for seniors who use the Chain of Lakes senior services—Telecare, Meals With Wheels, Friendly Visiting and transportation.

Schedule Wellness Clinic

Kenosha County Community and Family Health Services will conduct a Wellness Clinic for individuals 19-59 years of age on Tuesday, Dec. 3 at the Western Kenosha County Senior Center, Hwy. C, 19200 93rd St., Bristol.

Height, weight, hearing and vision tests will be taken along with urinalysis, blood pressure check and seven blood tests to determine whether there are heart, diabetes, gout, kidney or anemia problems. Colorectal screening for cancer is also available. There is an \$8 fee for the laboratory work and com-

puter analysis. Appointments can be made by calling Community and Family Health Services at (414) 656-6434, or 1 (800) 472-8008 (a toll free number) and asking to be connected with the above department.

Along the way with ANNIE MAE

Is everyone ready for all of these parties coming up? I hear the Johnsons and Koreceks had quite a bash! ALWAYS GOOD FOOD and lots of fun! Do you have everything back in shape Teri?

This snow has the snowmobile buffs thinking - Do not forget the snowmobile safety course that is going to be held at the State Bank of Antioch Dec. 14 from 8 a.m. until 5 p.m. This is a great opportunity to have your child certified and the timing couldn't have been any better! Call Glenda at Parks & Recreation for registration at (312) 395-2160.

Speaking of Parks & Recreation - I understand the letters to Santa are pouring in from all over the country! Santa's helpers are going to be putting in a lot of night work if they keep coming as they are! Anyone interested in helping the program please call Santa's Secretary - Glenda at (312) 395-2160. Your handwriting would be appreciated from what I understand. For those of you sending letters - 100 Toyland Rd., Antioch, Ill. 60002 - or put it in Santa's Mailbox across from the Old Fire Station. Do not forget your return address.

Have fun but be safe at your Holiday Parties!! Also belated birthdays to Jan Haley, Joe Pechulis, Sigred Ferstl and Pete Larson!

Center Slates Party

The Antioch Area Senior will have a Christmas party and dinner on Friday, Dec. 20. The Happy Wanderers—a three piece band—will entertain at the party that starts at noon.

Another party is set for New Year's Eve, Tuesday, Dec. 31. The Antioch Kitchen Band will perform at the center at 11 a.m. and the New Year's Eve dinner will be served at 12:30 p.m. For more information about the parties or the center call Paul Howard at 395-7120 or stop by and have some coffee and have a tour.

"I showed Julie Crosby how she could earn \$70,304 more at retirement..."

Madeline Schwechter, Senior Customer Service Representative, uses her expertise to help Skokie Federal customers make the most of their money.

"Just because an IRA is opened at one institution doesn't mean that the funds are sentenced to remain there for life. Many people don't realize how easy and profitable it can be to transfer entire IRA funds to higher earning insured accounts... like our 5-Year IRA Bonus Certificate.

"For example, I showed Julie Crosby how she could earn \$70,304 more at retirement by transferring all her IRA funds into our 5-Year IRA Bonus CD. She had accumulated \$7,280 in an IRA that was due to mature at another institution. Because our 5-year bonus rate is 1/2% higher than what she could get if she simply let her funds rollover, she could earn \$505,913 in interest after 32 years rather than \$435,609 at the other institution.* By having Julie sign one simple form, we can transfer her funds, and she'll be on her way to retiring \$70,304 richer.

"While I may not be able to bring instant wealth to my customers with this kind of advice, I can help them to secure a better future. That makes me proud to be a part of the Skokie Federal team."

*This assumes that she continues to contribute \$2,000 annually to her IRA, rates remain constant, and she will earn an average yield of 10.00%. As of December 12, 1985 the rate of our 5-Year Bonus CD is 9.60% yielding 10.22% annually. This rate is subject to change.

Incumbents File For County Board

First day filing for the Lake County Board election in March of 1986 saw few surprises in Dists. 4 and 5.

In Dist. 4, incumbent GOP Norman C. Geary (Avon Twp.) filed before going into the hospital for tests.

It is reported that Geary was taken to a hospital Dec. 9, but that a health problem has not been revealed as of yet.

Others filing in Dist. 4, where there are two seats open, include William "Bill" Mestan (Grant Twp.), Charlotte "Char" Kiesgen, Patrick Anderson (Avon Twp.), Joe Tobolik (Avon Twp.) and Ray Edwards (Antioch Twp.).

Dist. 5, which also has two seats open, saw four candidates file on the first day. Filing were GOP in-

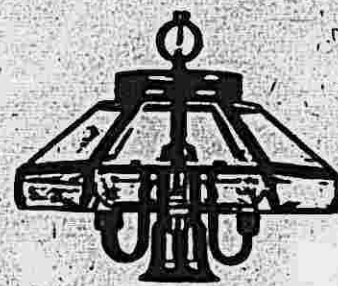

cumbents Robert W. Depke (Warren Twp.) and Eugene E. "Gene" Martin (Libertyville Twp.), along with Libertyville Twp. Supervisor F.T. "Mike" Graham and Carol Calabrese.

Dist. 3 saw Chairman Jim LaBelle (GOP) and Samuel Payne (Dem.) file on the first day.

The filing deadline for the county board election is Monday, Dec. 16.

NEXT WEEK'S HOROSCOPE

BY SALOME

Aries (Mar. 21-Apr. 19) Being sheepish is out of order for the holidays. Open your heart and tell your loved ones how much you really care. It's the gift that's returned many times over.

Taurus (Apr. 20-May 20) You hit the Bull's Eye squarely on target when you count your family and friends as the most important gifts life has given you. Tell them you care.

Gemini (May 21-June 20) Holiday time is the best time to let your hair down and tell that certain someone how you really feel. Stop playing games with sensitive emotions.

Cancer (June 21-July 20) Moon signs indicate rich rewards ready to be claimed by those bright enough to see opportunities. Trust the wisdom of those in a position to offer good advice.

Leo (July 21-Aug. 22) Beat those holiday blues. Your presence is best appreciated by its wrappings. Put on your best bib and tucker and go partying. The better you look, the better you'll feel.

Virgo (Aug. 23-Sept. 22) Family matters need attention even in the midst of holiday fussing. Take time out to tend to important situations first. Then relax and enjoy the good times.

Libra (Sept. 23-Oct. 22) Plans for the New Year need to be reconsidered. What appears to be a wholly trustworthy project could be full of holes instead. Check for weak areas.

Scorpio (Oct. 23-Nov. 21) Take care of those little details now before they put a drag on your holiday plans. Move quickly to answer important questions that come through early in the New Year.

Sagittarius (Nov. 22-Dec. 21) A new job brings new problems. Don't rely only on what you already know. Ask questions. Grow. Adapt. More challenges lie ahead than you expected.

Capricorn (Dec. 22-Jan. 19) Something happens away from home that can affect you and your loved ones. Prepare for news that may lead to changes. You can make it work to your advantage.

Aquarius (Jan. 20-Feb. 18) Don't let holiday lights blind you to important new situations at the work place. Expect to have to deal with problems that need your patience and wisdom.

Pisces (Feb. 19-March 20) Barring emergencies only, keep to those decisions you have already made. Too many changes could discourage those who are anxious to have you become a part of their plans.

Country Squire Party To Benefit Ailing Boy

by STACIE ELLIS

What Child is this whose life was saved by a long-awaited kidney transplant on Nov. 21 and will be honored by a Christmas fundraiser at the Country Squire in Grayslake on Dec. 16?

Three years old, and faced with a life-threatening condition due to underdeveloped kidneys, Panagiotis "Taki" Savourdos is a symbol of Christmas hope and "good will toward men."

Weakened and malnourished because of his condition, the young boy has been going through dialysis treatments seven times a day for the past nine months, but gestures toward his heart nonetheless in his own form of sign language to express, "I love you."

Despite the discomfort of having a feeding tube in his nose, a tube in his chest for the drawing of blood and a kidney dialysis tube in his stomach while he waited patiently for a transplant, Taki's big, brown eyes sparkle and he frequently giggles as he sits contentedly in the arms of his mother, Panagiota.

A foreigner in the United States, Taki's mother had no choice but to leave behind her

home, husband and 13-year-old daughter in Greece to save her son's life after Greek doctors gave up on his condition.

It was either a miracle or sheer luck when Bette Brown, of Libertyville, unexpectedly got involved with the Savourdos family while visiting relatives in Greece during the fall of 1984.

On Brown's fourth day in Greece, a cab driver told her about his cousin who had a child, Taki, who would die unless he received a kidney transplant.

When she got home, Brown invited Taki and his mother to come to the U.S. for the transplant and stay in her Libertyville home.

Refusing to give up, Panagiota accepted the invitation and arrived with her son on March 10.

Since that day, a fund-raising campaign has been established to meet the expenses of the kidney transplant, knee and wrist surgery to correct the bone-softening effects of rickets (a calcium deficiency disease) and the expensive medications that he will need the rest of his life. One of these, an anti-rejection drug, costs \$175 for three ounces.

Although many Greek physicians told Taki's mother that there was no hope for her son, a doctor who had been to the U.S. told her to save her child by taking him to America.

Many prayers, of family and friends, were answered when Dr. John Najarian, chief surgeon at the University of Minnesota Hospital, Minneapolis, performed the kidney transplant operation for the ailing boy shortly before Thanksgiving.

"Thanks to 'the god of transplants for children' (Dr. Najarian), the operation was a huge success," Brown said.

Out of intensive care, Taki is steadily recuperating in his own room. The dialysis tubes are gone, but the biggest obstacle right now is persuading Taki to eat. When he is strong enough, Taki will undergo surgery to correct his left wrist and knees.

As Taki heals and shows signs of strength, teenagers from the Greek Orthodox Youth Assn. (GOYA) of the St. Demetrios Church in Waukegan are busy sponsoring the "Christmas for Taki" party from 6 to 11 p.m. Monday, Dec. 16 at the Country Squire, Rtes. 120 and 45 in Grayslake. Those immediately in

charge of the gala affair are the following: Ernie Katris, president; George Couvall; Bill Katris, treasurer; Tim Poulos, ticket chairman; and Beth Camacaris, publicity chairman.

At \$20 per ticket, the GOYA aim to sell 1500 tickets to raise \$30,000 to help cover the expenses of Taki's surgery. The party will include hot and cold hors d'oeuvre's and a sweet table (donated by The Country Squire and its staff), and will be highlighted by

Renaissance Christmas carolers and piano and violin music.

Tickets will be available at the door or can be purchased at the St. Demetrios Church, Waukegan, or The Country Squire. For more information, call The Country Squire at (312)623-0190.

Anyone wishing to help Taki is asked to submit contributions to account number 502-456-0 in the name of Panagiotis Savourdos, at the Bank of Greece in Chicago.
